The Workforce

Medical Oncologists specialise in the study, investigation, diagnosis, management and treatment of benign and malignant growths, tumours, cancers, and diseases using medications such as chemotherapy, hormones and molecular targeted agents.

In the 2010 calendar year, there were 118 Medical Oncologists who primarily worked within NSW. This workforce had the following characteristics:

- **Average Age:** 46.8 years
- **Females:** 41.5% of the workforce
- **Average Hours:** Medical Oncologists worked an average 40.6 hours per week (of a standard 40 hour week)
- **Over 50s:** Approximately 39% were aged 50 years and over and 14% of the workforce were older than 60 years

Supply and Distribution

Distribution: Medical Oncologists are located mainly within the metropolitan Sydney Local Health Districts (LHDs).

Rural & Regional: Small numbers (<=10) of Medical Oncologists are located in rural and regional LHDs. Higher proportion of non-metropolitan Sydney Medical Oncologists indicate an intention to retire within the next 5 years (12.5%).

The Future in NSW – Workforce Planning to 2025

Estimated Demand Growth: Between 2.9% to 4.5% to 2025
Estimated Workforce Size: In 2025, between 190 to 204 Full Time Equivalents
Additional Fellows: Higher demand scenarios require additional trainees as of 2014
Range: Up to 5 additional new trainees per annum

Workforce Planning Priority and Risk Rating

Ageing: The risk associated with the workforce aged over 60 and 70.
Small Workforce Size: The risk associated with the sustainability of small workforces.
Retirement Intentions: The risk associated with the retirement intentions of the current workforce.
New Fellow Requirements: The risk associated with the requirement to recruit additional trainees, based on workforce planning to 2025.
Training Supervision: The risk associated with the availability of the existing workforce to provide supervision to new trainees.

Future Workforce Considerations
Addressing rural and regional workforce maldistribution
