Questions to ask about your medicines

It is important for you to know certain information about each of your medicines. Your doctor and pharmacist are trusted sources of medicines information and expect to be asked questions.

Take this list when you visit your doctor or pharmacist.

- Why do I need to take this medicine?
- How should my medicine work?
- When will my medicine start to work?
- How should I take my medicine? With water or food?
- When should I take my medicine and for how long?
- Do I need to avoid any other medicines, foods or drinks when I am taking this medicine?
- What should I do if I miss a dose?
- Do I need regular check ups or tests while taking the medicine?
- What are the side effects of taking this medicine?
- What should I do if a side effect occurs?
- How should I store my medicine?
- Is there anything else I need to know?
- Write down any other questions you may have.

You can also call Medicines Line to speak to a qualified pharmacist about medicines. Available Monday to Friday, 9am–6pm (EST) for the cost of a local call.

Medicines Line is not an emergency service. If you need an interpreter, call the Translating and Interpreting Service (TIS National) on 131 450 and ask to speak to the NPS Medicines Line on 1300 888 763.
