

## Paediatric trauma summary

This section includes all trauma admissions in the age range 0-15 years to trauma services (TS) during 2004, as this is the generally accepted paediatric age range solely for use in the paediatric MDS.

**Table 22. Paediatric admissions and deaths**

<b>Total admissions</b>	<b>277 admissions (230 patients)</b>	
<b>Survived</b>	215 patients	93% of paediatric patients
<b>Died</b>	15 patients	7% of paediatric patients
<b>Monthly average</b>	23 admissions	

**Table 23. Gender**

<b>Female</b>	79 patients	34% of paediatric patients
<b>Male</b>	151 patients	66% of paediatric patients
