

Dear Gladesville community member

Re: Gladesville Campus Master Plan Community Information Sessions

I am pleased to invite you, as a member of the Gladesville community, to attend a community information session on the Master Planning process for the Gladesville Campus.

NSW Health recently undertook three community workshops to explore principles and discuss possible future uses of the Gladesville Campus with the community, tenants, health service providers and other stakeholders.

Following the workshops, the project team developed a set of concepts for the Gladesville Campus having regard to the feedback provided by the community and other stakeholders.

I invite you to join us at a community information session to view and give feedback on the concept ideas for the Gladesville Campus. Feedback from the community information sessions will be used to refine ideas to inform the development of a draft Master Plan for Gladesville Campus.
