Application for a Licence for a Private Health Facility

(Private Health Facilities Act 2007, section 6)

When to use this form
This form is for applicants (individuals or companies) who wish to apply for a licence for a new private health facility. If you already own a private health facility you should use another form.

The Building Requirements
Under the Private Health Facilities Act 2007 the Secretary of the NSW Ministry of Health can impose conditions relating to the design and construction of any building to be built for the purposes of operating a licensed private health facility.

Before any building work is commenced an applicant for a licence for a new facility must apply to and receive written approval, from NSW Ministry of Health for the plans and specifications for the facility. Submissions and architectural plans will be assessed against the Australasian Health Facility Guidelines. Designs for private health facilities that depart from the guidelines will not be approved unless clear patient and/or service benefits can be demonstrated and justified.

The construction and design for new and refurbished private facilities must comply with the requirements of a class 9a building as defined in the Building Code of Australia. Copies of relevant approvals from local government authorities or independent certifiers will be required to be submitted with the completed application form as evidence of compliance.

Approval process
All applicants should familiarise themselves with the Private Health Facilities Act 2007 (the Act) and the Private Health Facilities Regulation 2017 as all applications are assessed against that legislation, with particular reference to the Australasian Health Facilities Guidelines. The approval process will take approximately 8 weeks from the date the NSW Ministry of Health receives the completed application. This does not include the time taken to build the facility. Further details about timeframes for the approval process can be found on the “Licensing of Private Health Facilities” page of the website.

Applicants will be provided with a written Approval in Principle once all the requirements of section 7 of the Act have been met. The letter of Approval in Principle will contain the conditions which must be met before the licence will be issued. An approval in principle of an application for a licence is valid for a period of twelve months and is not transferable. The applicant may apply for an extension of the Approval in Principle, but the application for extension must be in writing, made before the twelve month period has expired, and be accompanied by the prescribed fee.

Before the licence is issued, a final inspection will be carried out to ensure that the private health facility has been built in accordance with the approved plans and complies with the conditions of the Approval in Principle and all relevant Legislation. At the onsite commissioning inspection, all building, fire and other relevant certification will be required. Following the successful commissioning, a licence will be issued, endorsed for specific classes and services as specified in the application. The new licensee is responsible for the conduct of the establishment as from the date of the licence. Further information about the licensing process can be found on the “Licensing of Private Health Facilities” page of the website.

Payment
The prescribed application fee (non refundable) for a licence for a private health facility is $6,866. An additional application fee applies for private mental health class under section 115 (2)(b) the Mental Health Act 2007 of $104.
