

Demand and capacity modelling

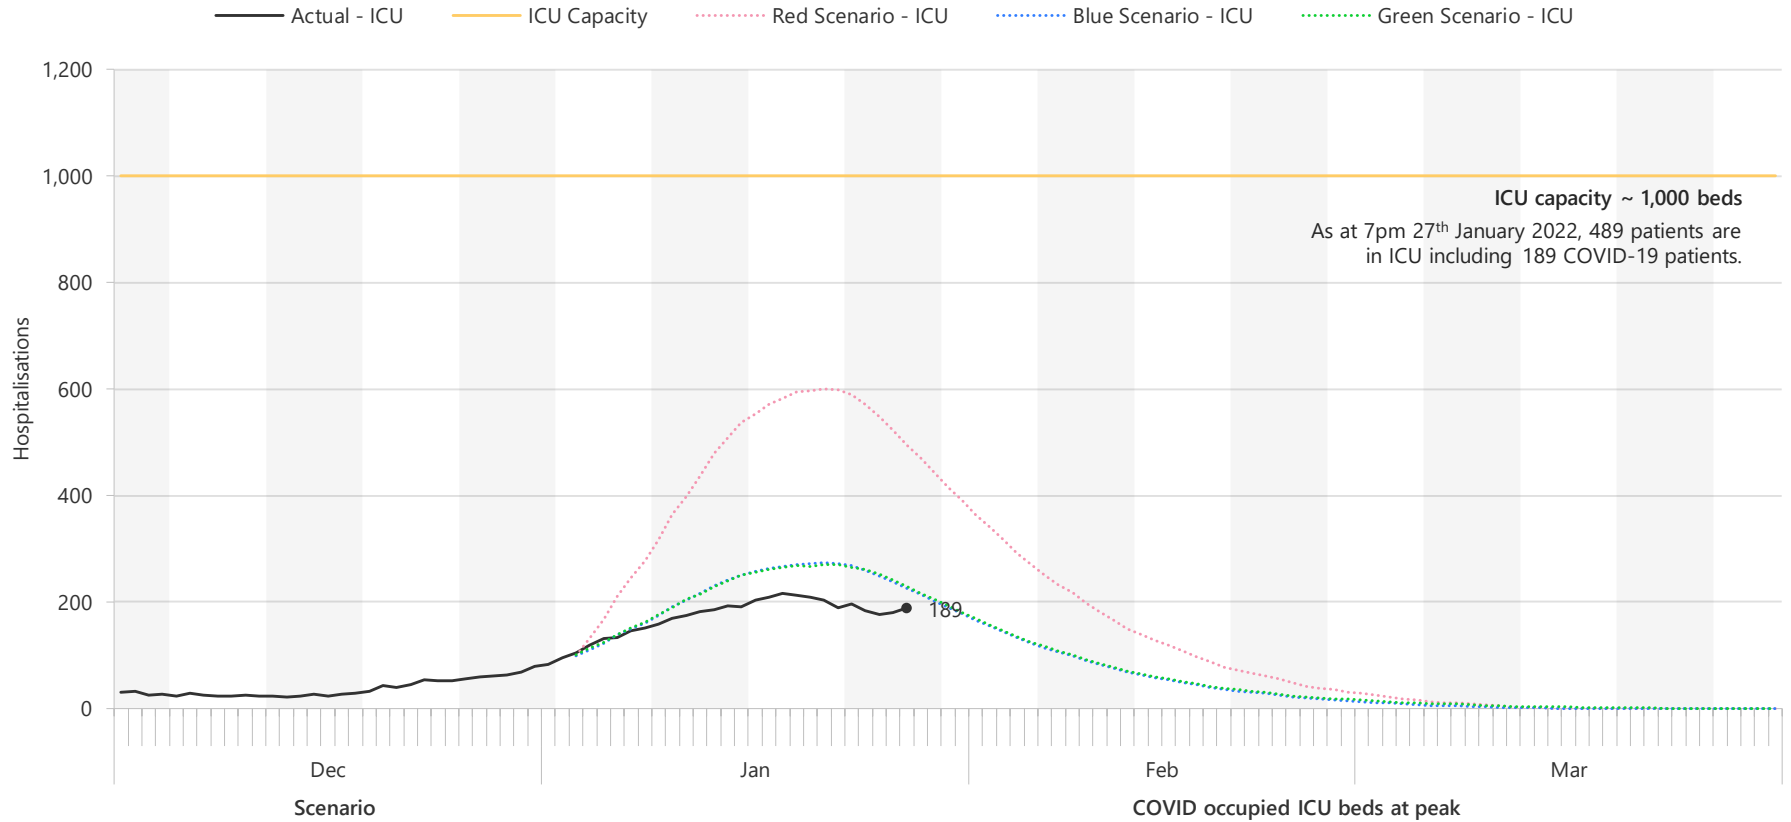

Comparison of COVID-19 Ward Hospitalisation Prediction Scenarios

Scenario		COVID occupied ward beds at peak
Red	Consistent with what has been seen in New York	6,000
Blue	NSW prediction with current parameters	4,700
Green	Consistent with what has been seen in London and Gauteng	3,158

Demand and capacity modelling

Comparison of COVID-19 ICU Hospitalisation Prediction Scenarios

Red	Consistent with what has been seen in New York	600
Blue	NSW prediction with current parameters	273
Green	Consistent with what has been seen in London and Gauteng	270
