

Did you know that **Shisha smoking** can increase your risk of **COVID-19** infection through:

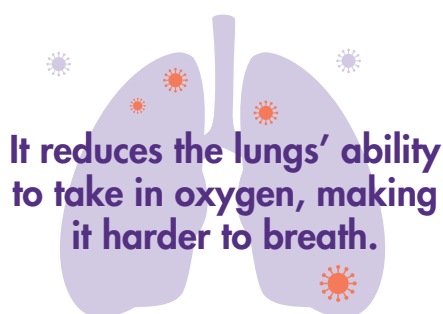

Shared mouth piece

Shared hoses

and the water in the bowl?

It can make the symptoms of COVID-19 worse.

If you have any symptoms, get tested **immediately**.

Testing is **free, quick, easy**

Medicare card is **not** required.

Most people receive their results within **24 hours**.

Visit
NSW.GOV.AU/COVID-19
to find a clinic near you.

Say **NO** **SHISHA** **THANKS!** today
