COVID-19 fact sheet for secondary close contacts
health.nsw.gov.au

COVID-19 and secondary close contacts

COVID-19 Close contacts (Close contacts) are people you have been in close contact with, either directly or indirectly.

- Directly: You were within 1.5m of an infectious person for 15 minutes or more.
- Indirectly: You were in the same enclosed space as an infectious person for 2 days after they left.

If you are a close contact of an infectious person, you must isolate for 14 days from the day you were last in contact.

COVID-19 symptoms can include:

- Fever or chills
- Fatigue
- Dry cough
- Difficulty breathing
- Loss of taste or smell
- Muscle or body aches
- Headache
- Sore throat
- New onset of a skin rash

COVID-19 vaccine

COVID-19 vaccination is available for free for all eligible groups. Find your nearest vaccination centre at health.nsw.gov.au/vaccination.

COVID-19 testing

If you are unwell or have a COVID-19 vaccine appointment, visit your closest testing location.

COVID-19 contact tracing

If you are identified as a close contact, you will be contacted by NSW Health or your local health service.

COVID-19 self-isolation

If you are identified as a close contact, you must isolate for 14 days from the day you were last in contact.

COVID-19 restrictions

If you are identified as a close contact, you may be required to comply with certain restrictions, such as not leaving your home for 14 days.

COVID-19 support

For further information or support, visit health.nsw.gov.au or call the NSW Health COVID-19 helpline on 1300 008 080.
