COVID-19 Self-Isolation Guideline

What to do if you've been in close contact with someone who has COVID-19.

1. Call Health Information Line on 1800 020 080.
2. Call your GP before you attend and let them know your concerns.
3. Call your local Public Health unit.

If you've tested positive for COVID-19 or been in close contact with someone who has, there are steps you need to follow.

1. Stay at home for 10 days from the date you tested positive or the date you were last in close contact.
2. Report your results to your local Public Health unit.
3. Continue to isolate until you've received a negative result on your second test.
