

INDEPENDENT AUDITOR'S REPORT

Far West Local Health District

To Members of the New South Wales Parliament

Opinion

I have audited the accompanying financial statements of Far West Local Health District (the District), which comprise the Statement by the Accountable Authority, the Statement of Comprehensive Income for the year ended 30 June 2025, the Statement of Financial Position as at 30 June 2025, the Statement of Changes in Equity and the Statement of Cash Flows, for the year then ended, and notes to the financial statements, including a Statement of Material Accounting Policy Information and other explanatory information.

In my opinion, the financial statements:

- have been prepared in accordance with Australian Accounting Standards and the applicable financial reporting requirements of the Government Sector Finance Act 2018 (GSF Act), the Government Sector Finance Regulation 2024 (GSF Regulation) and the Treasurer's Directions
- present fairly the District's financial position, financial performance and cash flows

My opinion should be read in conjunction with the rest of this report.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under the standards are described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of my report.

I am independent of the District in accordance with the requirements of the:

- Australian Auditing Standards
- Accounting Professional and Ethical Standards Board's APES 110 'Code of Ethics for Professional Accountants (including Independence Standards)' (APES 110).

Parliament promotes independence by ensuring the Auditor-General and the Audit Office of New South Wales are not compromised in their roles by:

- providing that only Parliament, and not the executive government, can remove an Auditor-General
- mandating the Auditor-General as auditor of public sector agencies
- precluding the Auditor-General from providing non-audit services.

I have fulfilled my other ethical responsibilities in accordance with APES 110.

I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Chief Executive's Responsibilities for the Financial Statements

The Chief Executive is responsible for the preparation and fair presentation of the financial statements in accordance with Australian Accounting Standards, the GSF Act, GSF Regulation and Treasurer's Directions. The Chief Executive's responsibility also includes such internal control as the Chief Executive

determines is necessary to enable the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Executive is responsible for assessing the District's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to:

- obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error
- issue an Independent Auditor's Report including my opinion.

Reasonable assurance is a high level of assurance, but does not guarantee an audit conducted in accordance with Australian Auditing Standards will always detect material misstatements. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions users take based on the financial statements.

A description of my responsibilities for the audit of the financial statements is located at the Auditing and Assurance Standards Board website at: www.auasb.gov.au/auditors_responsibilities/ar4.pdf. The description forms part of my auditor's report.

The scope of my audit does not include, nor provide assurance:

- that the District carried out its activities effectively, efficiently and economically
- on the budget figures disclosed in the financial statements
- about the security and controls over the electronic publication of the audited financial statements on any website where they may be presented
- about any other information which may have been hyperlinked to/from the financial statements.

Michael Kharzoo Director, Financial Audit

M. dty

Delegate of the Auditor-General for New South Wales

28 August 2025 SYDNEY

Statement by the Accountable Authority

for the year ended 30 June 2025

We state, pursuant to section 7.6(4) of the Government Sector Finance Act 2018 ('GSF Act'):

- 1. The financial statements of the Far West Local Health District for the year ended 30 June 2025 have been prepared in accordance with:
 - a. Australian Accounting Standards (AAS) (which include Australian Accounting Interpretations);
 - b. applicable requirements of the GSF Act, the Government Sector Finance Regulation 2024; and
 - c. Treasurer's Directions issued under the GSF Act.
- 2. The financial statements present fairly the Far West Local Health District's financial position as at 30 June 2025 and the financial performance and cash flows for the year then ended.

Jodie Miller

A/Chief Executive

26 August 2025

^{*}Apsara Kahawita

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

1. Statement of Material Accounting Policy Information

(a) Reporting entity

Far West Local Health District (the District), as a reporting entity, was established under the provisions of the *Health Services Act* 1997 with effect from 1 January 2011. The reporting entity is a not-for-profit entity (as profit is not its principal objective) and it has no cash generating units.

The District is a NSW Government entity and is controlled by the Ministry of Health, which is the immediate parent. The Ministry of Health is controlled by the State of New South Wales (and is consolidated as part of the NSW Total State Sector Accounts), which is the ultimate parent.

The District is also a parent entity in its own right, as it controls the operations of the:

- Hospital Facilities and the Community Health Centres within its designated geographical remit; and
- The Far West Local Health District Special Purpose Service Entity which provides personnel services to the District
 to exercise its functions and was established under the provisions of the Health Services Act 1997 with effect from 1
 January 2011.

The consolidated entity includes the District as a parent entity and the District Special Purpose Service Entity. The consolidated financial statements disclose balances for the parent entity and the consolidated entity.

In preparing the consolidated financial statements, all inter-entity transactions and balances have been eliminated, and like transactions and other events are accounted for using uniform accounting policies.

These consolidated financial statements for the year ended 30 June 2025 have been authorised for issue by the A/Chief Executive on 26 August 2025.

(b) Basis of preparation

The District's financial statements are general purpose financial statements which have been prepared on an accrual basis and in accordance with:

- applicable Australian Accounting Standards (AAS) (which include Australian Accounting Interpretations);
- the requirements of the Government Sector Finance Act 2018 ('GSF Act'), the Government Sector Finance Regulation 2024; and
- Treasurer's Directions issued under the GSF Act.

The financial statements of the District have been prepared on a going concern basis.

The Secretary of NSW Health, the Chair of the Far West Local Health District Board and the Chief Executive, through the Service Agreement have agreed to service and funding levels for the forward financial year. The Service Agreement sets out the level of financial resources for public health services under the District's control and the source of these funds. By agreement, the Service Agreement requires local management to control its financial liquidity and in particular meet benchmarks for the payment of creditors. Where the District fails to meet Service Agreement performance standards, the Ministry of Health as the state manager can take action in accordance with annual performance framework requirements, including withholding or providing additional financial support and increased management interaction.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

1. Statement of Material Accounting Policy Information (continued)

Other circumstances why the going concern assumption is appropriate include:

- Allocated funds, combined with other revenues earned, are adequate to pay debts as and when they become due and payable.
- The District has the capacity to review the timing of Ministry of Health allocation cash flows to ensure debts can be paid when they become due and payable.
- The District has developed an Efficiency and Improvement Plan (EIP) which identifies revenue improvement and cost saving strategies. Benefits from the EIP are retained by the District and assist in meeting its overall budget target. The EIP is monitored and evaluated by the Ministry of Health throughout the financial year.

Property, plant and equipment and certain financial assets are measured using the fair value basis. Other financial statement items are prepared in accordance with the historical cost convention except where specified otherwise.

Judgements, key assumptions and estimations management have made are disclosed in the relevant notes to the financial statements.

All amounts are rounded to the nearest one thousand dollars (unless otherwise stated) and are expressed in Australian currency, which is the District's presentation and functional currency.

(c) Statement of Compliance

The financial statements and notes comply with Australian Accounting Standards which include Australian Accounting Interpretations.

(d) Comparative Information

Except when an Australian Accounting Standard permits or requires otherwise, comparative information is disclosed in respect of the previous period for all amounts reported in the financial statements.

Certain comparative information has been reclassified to ensure consistency with current year presentation and classification. These include:

- Statement of Cash Flows: 'Reimbursements from The Crown' has been reclassified to 'Personnel Services' in the
 Parent entity to align the cash flow presentation with the accounting of Crown reimbursements. The prior year
 comparatives have accordingly been updated.
- Note 26 Fair value measurement of non-financial assets: The fair value hierarchy disclosure has been updated in the
 current year to include leasehold improvements, work in progress and newly completed assets which are carried at
 cost for accurate presentation. Prior year comparatives have accordingly been updated.
- Note 27 Restricted assets: The restricted asset balances, which previously reported the opening and closing equity balances, have now been revised to present the opening and closing balances of restricted cash and cash equivalents, along with restricted TCorpIM fund investments, for each category of restricted financial assets.
- Note 37 Trust funds: The trust fund balances, which previously reported the opening and closing equity balances, have
 now been revised to present the opening and closing balances of trust fund cash and cash equivalents for each
 category of trust funds.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

1. Statement of Material Accounting Policy Information (continued)

(e) Changes in accounting policy, including new or revised Australian Accounting Standards

(i) Effective for the first time in 2024-25

The following new Australian Accounting Standard has been applied for the first time in 2024-25:

 AASB 2022-10 Amendments to Australian Accounting Standards – Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities (AASB 2022-10)

The nature and effect of the changes as a result of adoption of this amendment is described below.

AASB 2022-10 amends AASB 13 Fair Value Measurement to add authoritative implementation guidance and related illustrative examples for fair value measurement of non-financial assets of not-for-profit public sector entities not held primarily for their ability to generate net cash inflows. The guidance specifies that the entity is required to consider whether the asset's highest and best use differs from its current use, clarifies the 'financially feasible' criteria, specifies that an entity uses its own assumptions as a starting point for unobservable inputs and provides guidance on how the cost approach is to be applied to measure the assets fair value.

The District has reviewed its accounting policies with reference to the guidance and concluded that the impact of applying this amendment did not materially affect the financial statements.

Several amendments and interpretations apply for the first time in 2024-25, the impact of which is not material to the financial statements of the District.

As a result, the accounting policies applied in 2024-25 are consistent with those of the previous financial year.

(ii) Issued but not yet effective

NSW public sector entities are not permitted to early adopt new Australian Accounting Standards (AAS), unless NSW Treasury determines otherwise.

The following new AAS has not been applied and is not yet effective:

• AASB 18 Presentation and Disclosure in Financial Statements (AASB 18).

AASB 18 aims to improve how entities communicate in their financial statements, with a particular focus on information about financial performance in the statement of profit or loss. AASB 18 will replace AASB 101 Presentation of Financial Statements.

The key presentation and disclosure requirements established by AASB 18 are:

- the presentation of newly defined subtotals in the statement of profit or loss;
- the disclosure of management-defined performance measures; and
- enhanced requirements for grouping information (i.e. aggregation and disaggregation).

For not-for-profit public sector entities, AASB 18 applies to annual reporting periods beginning on or after 1 January 2028. The impact of AASB 18 is yet to be determined by the District.

There are other standards and amendments issued but not yet effective, the impacts of which are not anticipated to be material.

	\$000	\$000	\$000	\$000
Interest expense from lease liabilities	74	33	74	33
	74	33	74	33

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

9. Revenue

Accounting policies for the recognition of income are discussed below.

Under the GSF Act 2018, the District's own source revenue (which includes but is not limited to receipts from operating activities and proceeds from the sale of property, plant and equipment) meets the definition of deemed appropriation money under the GSF Act.

Deemed appropriation money is money received directly by the District which forms part of the consolidated fund and is not appropriated to the District by an Act.

10. Summary of compliance

The Appropriation Act 2024 (Appropriations Act) (and the subsequent variations, if applicable) appropriates the sum of \$20,367 million to the Minister for Health out of the Consolidated Fund for the services of the Ministry of Health for the year 2024–25. The spending authority of the Minister from the Appropriations Act has been delegated or subdelegated to officers of the Ministry of Health and entities that it is administratively responsible for, including the District.

The lead Minister for the District being the Minister for Health, is taken to have been given an appropriation out of the Consolidated Fund under the authority section 4.7 of the GSF Act, at the time the District receives or recovers any deemed appropriation money, for an amount equivalent to the money that is received or recovered by the District. These deemed appropriations are taken to have been given for the services of the Ministry of Health.

In addition, government money that the District receives or recovers, from another GSF agency, of a kind prescribed by the GSF regulations that forms part of the Consolidated Fund, is also deemed appropriation moneys where the receiving agency has a different lead Minister to the agency making the payment, or one or both of the agencies is a special office (as defined in section 4.7(8)).

A summary of compliance is disclosed in the financial statements of the Annual Report of the Ministry of Health. It has been prepared by aggregating the spending authorities of the Minister for Health for the services of the Ministry of Health. It reflects the status at the point in time this disclosure statement is being made. The District's spending authority and expenditure is included in the summary of compliance.

The delegation / sub-delegations for 2025 and 2024, authorising officers of the District to spend Consolidated Fund money, impose limits on the amounts of individual transactions, but not the overall expenditure of the District. However, as they relate to expenditure in reliance on a sum appropriated by legislation, the delegation / sub-delegations are subject to the overall authority of the Ministry of Health to spend monies under relevant legislation. The individual transaction limits have been properly observed. The information in relation to the aggregate expenditure limit from the Appropriations Act and other sources is disclosed in the summary of compliance table included in the financial statements of the Annual Report of the Ministry of Health.

11. Ministry of Health allocations

Payments are made by the immediate parent as per the Service Agreement to the District and adjusted for approved supplementations, mostly for salary agreements and approved enhancement projects. The Service Agreement between the immediate parent and the District does not contain sufficiently specific enforceable performance obligations as defined by AASB 15 and are therefore recognised upon the receipt of cash, in accordance with AASB 1058.

Interstate patient flows are funded through the NSW State Pool Account, based on activity and consistent with the price determined in cross border agreements. The funding is also recognised as part of the Ministry of Health recurrent allocation from the immediate parent.

12. Sale of goods and services from contracts with customers (continued)

Recognition and Measurement

Sale of goods

Revenue from the sale of goods is recognised when the District satisfies a performance obligation by transferring the promised goods.

	Nature of timing of satisfaction of performance obligations, including	
Type of good	significant payment terms	Revenue recognition policies
Sale and recovery of pharmaceutical supplies	The performance obligation of transferring pharmaceutical products is typically satisfied at the point in time when the products are dispensed to customers, which denotes acceptance by the customer, and therefore deemed as the point in time when the control is transferred to the customer. The payments are typically due within 30 days after the invoice date.	Revenue from these sales is recognised based on the price specified on the invoice, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a short credit term. No volume discount or warranty is provided on the sale.
Sale of prostheses	Relates to revenue generated for surgically implanted prostheses and medical devices. The performance obligation of transferring these products is typically satisfied at the point in time when the products are implanted in the body of the patient, which denotes acceptance by the customer, and therefore deemed as the point in time when the control is transferred to the customer. The payments are typically due within 30 days after the invoice date.	Revenue from these sales is recognised based on the price specified on the invoice, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a short credit term. No volume discount or warranty is provided on the sale.
Other	Relates to sale of various products including the sale of low value medical equipment, schedule 3 medical equipment, sale of publications, old wares and refuse and other general goods. The performance obligation of transferring these products is typically satisfied at the point in time when the products are purchased by the customer and takes delivery, which denotes acceptance by the customer, and therefore deemed as the point in time when the control is transferred to the customer. The payments are typically due within 30 days after the invoice date.	Revenue from these sales is recognised based on the price specified on the invoice, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a short credit term. No volume discount or warranty is provided on the sale.

for the year ended 30 June 2025

12. Sale of goods and services from contracts with customers (continued)

Recognition and Measurement (continued)

Rendering of services

Revenue from rendering of services is recognised when the District satisfies the performance obligation by transferring the promised services.

Nature of timing of satisfaction of performance obligations, including significant payment terms

Type of service

Patient services - Inpatient fees, Nursing home fees, Non inpatient fees, Department of Veterans' Affairs, Motor Accident Authority third party The performance obligations in relation to patient services are typically satisfied as the health services are delivered to the chargeable inpatients and non-inpatients. Public patients are not charged for health services provided at public hospitals. Chargeable patients, including Medicare ineligible patients, privately insured patients, eligible veterans, compensable patients are billed for health services provided under various contractual arrangements. Billings are typically done upon patient discharge and is based on the rates specified by the Ministry of Health. The payments are typically due within 30 days after the invoice date.

Non-Patient services provided to staff, General community, Non-NSW Health entities and Entities controlled by the immediate parent Various non-patient related services are provided to the members of staff, general community, non-NSW health entities and entities controlled by the immediate parent. The performance obligations for these services are typically satisfied by transferring the promised services to its respective customers. The payments are typically due within 30 days after the invoice date.

Revenue recognition policies

Revenue is recognised on an accrual basis when the service has been provided to the patient. In limited circumstances the price is not fully recovered, e.g. due to inadequate insurance policies, overseas patients returning to their home country before paying, etc. The likelihood of their occurrences is considered on a case by case basis. In most instances revenue is initially recognised at full amounts and subsequently adjusted when more information is provided. No element of financing is deemed present as majority of the services are made with a short credit term.

Revenue is recognised when promised services are delivered. No element of financing is deemed present as the services are made with a short credit term.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

12. Sale of goods and services from contracts with customers (continued)

Recognition and Measurement (continued)

Rendering of services (continued)

	Nature of timing of satisfaction of performance obligations, including				
Type of service	significant payment terms	Revenue recognition policies			
Infrastructure fees	Specialist doctors with rights of private practice are subject to an infrastructure charge, including service charges where applicable for the use of hospital facilities at rates determined by the Ministry of Health. The performance obligations for these services are typically satisfied when the hospital facilities are made available and used by the doctors and staff specialists. The payments are typically due when monies are collected from patient billings for services provided under the arrangement.	Revenue is recognised when promised services are delivered. No element of financing is deemed present as the services are made with a short credit term.

13. Investment revenue

	Consolidated	Consolidated	Parent	Parent
	2025	2024	2025	2024
	\$000	\$000	\$000	\$000
Interest income from financial assets at amortised				
cost	64	40	64	40
	64	40	64	40

Recognition and Measurement

Interest income from financial assets at amortised cost

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit impaired. For financial assets that become credit impaired, the effective interest rate is applied to the amortised cost of the financial asset (i.e. after deducting the loss allowance for expected credit losses).

^{*} Represents funding received by the District from the Ministry of Health, the immediate parent, in respect of activity-based funding and block funding in scope of the Commonwealth National Health Reform Agreement (NHRA). The Ministry of Health receives funding from the Commonwealth and distributes based on activity levels for activity-based funding and at set amounts for the block funding component. The activity-based funding is recognised under AASB 15 Revenue from Contracts with Customers (AASB 15), while block funding is recognised under AASB 1058 Income of Not-for-Profit Entities (AASB 1058) due to lack of specific performance obligations. The activity-based revenue is calculated by multiplying activity levels with the agreed National Weighted Activity Unit price. Any prior year adjustments are settled by adjusting Ministry of Health recurrent allocations.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

14. Grants and other contributions (continued)

Recognition and Measurement

Grants and other contributions

Income from grants to acquire / construct a recognisable non-financial asset to be controlled by the District are recognised when the District satisfies its obligations under the transfer. The District satisfies the performance obligation under the transfer over time as the non-financial assets are being constructed. The percentage of cost incurred is used to recognise income because this most closely reflects the progress to completion.

Revenue from grants with sufficiently specific performance obligations are recognised when the District satisfies a performance obligation by transferring the promised goods or services. The District typically receives grants in respect of research, clinical drug trials and other community, health and wellbeing related projects. The District uses various methods to recognise revenue over time, depending on the nature and terms and conditions of the grant contract. The payments are typically based on an agreed timetable or on achievement of different milestones in the contract.

Revenue from these grants is recognised based on the grant amount specified in the funding agreement / funding approval, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as funding payments are usually received in advance or shortly after the relevant obligation is satisfied.

Income from grants without sufficiently specific performance obligations is recognised when the District obtains control over the granted assets (e.g. cash).

Cash at bank - held by HealthShare NSW*	1,461	1,377	1,461	1,377
	1,466	1,495	1,466	1,495

^{*} Represents cash held by HealthShare NSW, a controlled entity of the immediate parent, in a central bank account, on behalf of the District for its operating and investing activities. It is an operational bank account that earns interest on daily bank balances.

Refer to Note 13 Investment revenue for the recognition and measurement policies on interest income.

Refer to Note 38 for details regarding credit risk and market risk arising from financial instruments.

Most cash and cash equivalents held by the District are restricted assets. Refer to Note 27 for the details of restricted assets.

HealthShare NSW, a controlled entity of the immediate parent manages accounts payable and employee related payments on behalf of the District for payments to suppliers and employees. HealthShare NSW makes payments after the District has reviewed and approved the invoices and employee rosters. The District's approval of invoices and employee rosters provides authority to HealthShare NSW to make payments. These payments are reported as expenditures and cash outflows in the financial statements of the District.

HealthShare NSW receives funds directly from the Ministry of Health to make these payments to suppliers and employees on behalf of the District. Upon payment, these are reported as revenue (Ministry of Health recurrent and capital allocations) and cash inflows in the financial statements of the District.

Details regarding credit risk of receivables that are neither past due nor impaired, are disclosed in Note 38.

	Consolidated	Consolidated	Parent	Parent
	2025	2024	2025	2024
	\$000	\$000	\$000	\$000
Current				
Contract receivables (included in Note 21)	1,586	2,276	1,586	2,276
Total contract receivables	1,586	2,276	1,586	2,276

Recognition and Measurement

Receivables are initially recognised at fair value plus any directly attributable transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price.

Subsequent measurement

The District holds receivables with the objective to collect the contractual cash flows and therefore measures them at amortised cost using the effective interest method, less any impairment. Changes are recognised in the net result for the year when impaired, derecognised or through the amortisation process.

Impairment

For trade receivables, the District applies a simplified approach in calculating expected credit losses (ECLs). The District recognises a loss allowance based on lifetime ECLs at each reporting date. The District has established a provision matrix based on its historical credit loss experience for trade receivables, adjusted for forward looking factors specific to the receivable.

Drug supplies	167	179	167	179
Other including goods in transit	278	244	278	244
	445	423	445	423

Recognition and Measurement

All inventories are held for distribution (consumed in the ordinary activities of the entity). Inventories held for distribution are stated at cost, adjusted when applicable, for any loss of service potential. A loss of service potential is identified and measured based on the existence of a current replacement cost that is lower than the carrying amount or any loss of operating capacity due to obsolescence. Cost is calculated using the weighted average cost method.

Net carrying amount	205,634	10,250	4,398	220,282

¹ For non-specialised assets with short useful lives, recognition at depreciated historical cost is regarded as an acceptable approximation of fair value, in accordance with Treasury Policy Paper 21-09.

Further details regarding the fair value measurement of property, plant and equipment are disclosed in Note 26.

The District has a building with a written down value of \$3.019 million (2024: \$3.310 million) subject to an operating lease at minimal rental and all other property, plant and equipment balances are for items held and used by the District.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

23. Property, plant and equipment (continued)

Recognition and Measurement

Acquisition of property, plant and equipment

Property, plant and equipment acquired are initially recognised at cost and subsequently revalued at fair value less accumulated depreciation and impairment.

Health Infrastructure, a controlled entity of the immediate parent, manages the approved major capital works program for the Ministry of Health and its controlled entities. Health Infrastructure receives Ministry of Health Capital Allocations and grants on behalf of the District and records all costs incurred as work in progress or expenses and subsequently transfers those costs to the District. The costs are then accordingly reflected in the District's financial statements. The District acquires most assets in this manner.

Land and buildings are owned by the Health Administration Corporation. Land and buildings which are operated / occupied by the District are deemed to be controlled by the District and are reflected as such in the financial statements.

Capitalisation thresholds

Property, plant and equipment assets costing more than \$10,000 individually (or forming part of a group costing more than \$100,000) are capitalised.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

23. Property, plant and equipment (continued)

Depreciation of property, plant and equipment

Except for certain non-depreciable assets, depreciation is provided for on a straight-line basis so as to write off the depreciable amount of each asset as it is consumed over its useful life to the District.

All material identifiable components of assets are depreciated separately over their useful life.

Land is not a depreciable asset.

Details of depreciation rates initially applied for major asset categories are as follows:

Buildings 30-70 years
Plant and equipment 4-20 years
Infrastructure Systems 40 years

'Plant and equipment' comprises, among others, medical, computer and office equipment, motor vehicles, furniture and fittings and PODS (a detachable or self-contained unit on ambulances used for patient treatment).

'Infrastructure Systems' comprises public facilities which provide essential services and enhance the productive capacity of the economy.

The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting period and adjusted if appropriate.

Right-of-use assets acquired by lessees

AASB 16 Leases (AASB 16) requires a lessee to recognise a right-of-use asset for most leases. The District has elected to present right-of-use assets separately in the Statement of Financial Position.

Further information on leases is contained in Note 24.

Notes to and forming part of the Financial Statements for the year ended 30 June 2025

23. Property, plant and equipment (continued)

Revaluation of property, plant and equipment

Physical non-current assets are valued in accordance with the 'Valuation of Physical Non-Current Assets at Fair Value' Policy and Guidelines Paper (TPP 21-09) and Treasurer's Direction, 'Valuation of Physical Non-Current Assets at Fair Value' (TD 21-05). TPP 21-09 and TD 21-05 adopt fair value in accordance with AASB 13 Fair Value Measurement, AASB 116 Property, Plant and Equipment and AASB 140 Investment Property.

Property, plant and equipment is measured at the highest and best use by market participants that is physically possible, legally permissible and financially feasible. The highest and best use must be available at a period that is not remote and takes into account the characteristics of the asset being measured, including any socio-political restrictions imposed by government. In most cases, after taking into account these considerations, the highest and best use is the existing use. In limited circumstances, the highest and best use may be a feasible alternative use, where there are no restrictions on use or where there is a feasible higher restricted alternative use.

Revaluations are made with sufficient regularity to ensure the carrying amount of each asset in the class does not differ materially from its fair value at reporting date. The District conducts a comprehensive revaluation at least every three years for its land and buildings and infrastructure. Interim revaluations are conducted between comprehensive revaluations where cumulative changes to indicators suggest fair value may differ materially from carrying value. The District uses an independent professionally qualified valuer for such interim revaluations.

The last comprehensive revaluation was completed on 31 December 2023 and was based on an independent assessment.

Indices were subsequently obtained from external professionally qualified valuers since the last comprehensive revaluation. Indices obtained indicated a cumulative increase of 2.30% in market prices for land and material increases in construction and labour costs of 7.18% for buildings and 7.18% for infrastructure. Management has applied these indices to perform an interim revaluation and has recognised the resulting revaluation increment for land, buildings and infrastructure in 2024 and 2025.

Non-specialised assets with short useful lives are measured at depreciated historical cost, as an approximation of fair value. The District has assessed that any difference between fair value and depreciated historical cost is unlikely to be material.

For other assets valued using other valuation techniques, any balances of accumulated depreciation existing at the revaluation date in respect of those assets are credited to the asset accounts to which they relate. The net asset accounts are then increased or decreased by the revaluation increments or decrements.

Notes to and forming part of the Financial Statements for the year ended 30 June 2025

24. Leases

(a) Entity as a lessee

The District leases various property, equipment and motor vehicles. Lease contracts are typically made for fixed periods of 1-5 years but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants but leased assets may not be used as security for borrowing purposes. The District does not provide residual value guarantees in relation to leases.

Extension and termination options are included in a number of property and equipment leases. These terms are used to maximise operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the District and not by the respective lessor. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

The District has elected to recognise payments for short-term leases and low value leases as expenses on a straight-line basis, instead of recognising a right-of-use asset and lease liability. Short-term leases are leases with a lease term of 12 months or less. Low value assets are assets with a fair value of \$10,000 or less when new and comprise mainly of small office and medical equipment items.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

24. Leases (continued)

(a) Entity as a lessee (continued)

Right-of-use assets under leases

The following table presents right-of-use assets. There are no right-of-use assets that meet the definition of investment property.

PARENT AND CONSOLIDATION

	Land and Buildings \$000	Plant and Equipment \$000	Total \$000
Balance at 1 July 2024	(7)	653	646
Additions	399	769	1,168
Reassessments - increase / (decrease)	26	33	59

24. Leases (continued)

(a) Entity as a lessee (continued)

Lease liabilities

The following table presents liabilities under leases.

PARENT AND CONSOLIDATION

	2025	2024
	\$000	\$000
Balance at 1 July	672	534
Additions	1,168	439
Interest expenses	74	33
Payments	(547)	(335)
Terminations / derecognition	-	(1)
Other adjustments	59	2
Balance at 30 June	1,426	672

The following amounts were recognised in the Statement of Comprehensive Income during the period in respect of leases where the District is the lessee:

PARENT AND CONSOLIDATION

	2025	2024
	\$000	\$000
Depreciation expense of right-of-use assets	542	291
Interest expense on lease liabilities	74	33
Expenses relating to short-term leases	934	708
Expenses relating to leases of low-value assets	52	46
(Gains) / losses on disposal	-	4
Total amount recognised in the statement of comprehensive income	1,602	1,082

The District had total cash outflows for leases of \$1.53 million for the year ended 30 June 2025 (2024: \$1.09 million).

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

24. Leases (continued)

(a) Entity as a lessee (continued)

Recognition and Measurement

i. Right-of-use assets

The right-of-use assets are subsequently measured at cost. They are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Buildings 1 to 2 years Motor vehicles and other equipment 1 to 5 years

ii. Lease liabilities

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for real estate leases, the incremental borrowing rate is used. The District does not borrow funds in the market. Instead they receive an allocation of the appropriations from the Crown and where the Crown needs additional funding, Treasury Corporation (TCorp) goes to the market to obtain these funds. As a result, the District is using TCorp rates as their incremental borrowing rates. These rates are published by NSW Treasury on a regular basis.

iii. Short-term leases and leases of low-value assets

The District applies the short-term lease recognition exemption to its short-term leases of buildings, machinery, motor vehicles and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as an expense on a straight-line basis over the lease term.

(b) Entity as a lessor

The District has operating leases for their staff accommodation, houses and one entire building. These assets are leased for the benefit and furtherance of the public health system and not for the intention of deriving a profit.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025 $\,$

25. Intangible assets

PARENT AND CONSOLIDATION

	Software \$000	Total
		\$000

	Software	Total
	\$000	\$000
At 30 June 2025		
Cost (gross carrying amount)	132	132
Less: accumulated amortisation and impairment	132	132
Net carrying amount	-	-

Recognition and Measurement

The useful lives of intangible assets are assessed to be finite.

The District's intangible assets are amortised using the straight-line method over a period of four years.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

26. Fair value measurement of non-financial assets

PARENT AND CONSOLIDATION

Fair value measurement and hierarchy

When measuring fair value, the valuation technique used maximises the use of relevant observable inputs and minimises the use of unobservable inputs. Under AASB 13 Fair Value Measurement, the District categorises, for disclosure purposes, the valuation techniques based on the inputs used in the valuation techniques as follows:

- Level 1 quoted (unadjusted) prices in active markets for identical assets / liabilities that the entity can access at the measurement date.
- Level 2 inputs other than quoted prices included within Level 1 that are observable, either directly or indirectly.
- Level 3 inputs that are not based on observable market data (unobservable inputs).

The District recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(a) Fair value hierarchy

	Level 1	Level 2	Level 3	Total Fair Value
2025	\$000	\$000	\$000	\$000
Property, plant and equipment (Note 23)				
- Land and buildings	-	457	205,177	205,634
- Infrastructure systems	-	-	4,398	4,398
	-	457	209,575	210,032

There were no transfers between level 1 and 2 during the year ended 30 June 2025.

The above figures include leasehold improvements, work in progress and newly completed assets which are carried at cost. Cost for such assets are regarded as an approximation of fair value.

	Level 1	Level 2	Level 3 Tot	tal Fair Value
2024	\$000	\$000	\$000	\$000
Property, plant and equipment (Note 23)				
- Land and buildings	-	457	160,751	161,208
- Infrastructure systems	-		4,423	4,423
	-	457	165,174	165,631

There were no transfers between level 1 and 2 during the year ended 30 June 2024.

The above figures include leasehold improvements, work in progress and newly completed assets which are carried at cost. Cost for such assets are regarded as an approximation of fair value.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

26. Fair value measurement of non-financial assets (continued)

(b) Valuation techniques, inputs and processes

For land, buildings and infrastructure systems the District obtains external valuations by independent valuers at least every three years. The last revaluation was performed by CBRE Valuation & Advisory Services for the 2023-24 financial year. CBRE Valuation & Advisory Services is an independent entity and is not an associated entity of the District.

At the end of each reporting period a fair value assessment is made on any movements since the last revaluation, and a determination as to whether any adjustments need to be made. These adjustments are made by way of application of indices (refer Note 23).

The non-current assets categorised in (a) above have been measured as either level 2 or level 3 based on the following valuation techniques and inputs:

• For land, the valuation by the valuer is made on a market approach, comparing similar assets (not identical) and observable inputs. The most significant input is price per square metre.

Some commercial and non-restricted land is included in level 2 as these land valuations have a high level of observable inputs although these lands are not identical.

All the restricted land has been classified as level 3 as, although observable inputs have been used, a significant level of professional judgement is required to adjust inputs in determining the land valuations. Certain parcels of land have zoning restrictions, for example hospital grounds, and values are adjusted accordingly.

- For buildings and infrastructure, many assets are of a specialised nature or use, including some modified residential properties and thus the most appropriate valuation method is depreciated replacement cost. These assets are included as level 3 as these assets have a high level of unobservable inputs. However, some residential properties are valued on a market approach and included in level 2.
- Non-current assets held for sale is a non-recurring item that is measured at the lower of its fair value less cost to sell or its carrying amount. These assets are categorised as level 2.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

26. Fair value measurement of non-financial assets (continued)

(c) Reconciliation of recurring Level 3 fair value measurements

PARENT AND CONSOLIDATION

	Land and Buildings	Infrastructure Systems	Total Level 3 Recurring

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

27. Restricted assets

PARENT AND CONSOLIDATION

The District's financial statements include cash and cash equivalents, the use of which is restricted for stipulated purposes and / or by externally imposed conditions, e.g. donor requirements. The assets are only available for application in accordance with the terms of the donor restrictions.

	2025	2024
Category	\$000	\$000
Community welfare	76	73
Facility improvements	794	751
Holds funds in perpetuity	12	12
Patient welfare	85	95
Public contributions	365	317
Staff welfare	2	2
Training and education including conferences	127	127
	1,461	1,377

Restricted assets are held for the following purpose and cannot be used for any other purpose.

Category	Purpose
Community welfare	Improvements to service access, health literacy, public and preventative health
	care.
Facility improvements	Repairs, maintenance, renovations and/or new equipment or building related expenditure.
Holds funds in perpetuity	Donor has explicitly requested funds be invested permanently and not otherwise expended.
Patient welfare	Improvements such as medical needs, financial needs and standards for patients.
Public contributions	Donations or legacies received without any donor-specified conditions as to its use
Staff welfare	Staff benefits such as staff recognition awards, functions and staff amenity improvements.
Training and education including conferences	Professional training, education and conferences.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

Unclaimed monies

All money and personal effects of patients which are left in the custody of the District by any patient who is discharged or dies in the hospital and which are not claimed by the person lawfully entitled thereto within a period of twelve months are recognised as the property of the District.

All such money and the proceeds of the realisation of any personal effects are lodged to the credit of the Samaritan Fund which is used specifically for the benefit of necessitous patients or necessitous outgoing patients.

30. Provisions (continued)

Recognition and Measurement

Employee benefits and other provisions

Salaries and wages, annual leave, allocated days off (ADO), parental leave, sick leave and on-costs

Actuarial advice obtained by NSW Treasury, a controlled entity of the ultimate parent, has confirmed that using the nominal annual leave balance plus the annual leave entitlements accrued while taking annual leave can be used to approximate the present value of the annual leave liability. On-costs of 22.20% are applied to the value of leave payable at 30 June 2025 (comparable on-costs for 30 June 2024 were 22.68%). The District has assessed the actuarial advice based on the District's circumstances to the annual leave, ADO and parental leave and has determined that the effect of discounting is immaterial. All annual leave, ADO and parental leave are classified as a current liability even where the District does not expect to settle the liability within 12 months as the District does not have an unconditional right to defer settlement.

Unused non-vesting sick leave does not give rise to a liability as it is not considered probable that sick leave taken in the future will be greater than the benefits accrued in the future.

Long service leave and superannuation

The District's liability for long service leave and defined benefit superannuation (State Authorities Superannuation Scheme and State Superannuation Scheme) are assumed by The Crown in right of the State of New South Wales. The District accounts for the liability as having been extinguished, resulting in the amount assumed being shown as part of the non-monetary revenue item described as 'Acceptance by the Crown of employee benefits'.

Specific on-costs relating to long service leave assumed by The Crown in right of the State of New South Wales are borne by the District.

Long service leave is measured at the present value of expected future payments to be made in respect of services provided up to the reporting date. Consideration is given to certain factors based on actuarial review, including expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using the long-term Commonwealth Government bond rate at the reporting date.

The superannuation expense for the financial year is determined by using the formulae specified in the Treasurer's Directions. The expense for certain superannuation schemes (i.e. Basic Benefit and Aware Super) is calculated as a percentage of the employee's salary. For other superannuation schemes (i.e. State Superannuation Scheme and State Authorities Superannuation Scheme), the expense is calculated as a multiple of the employee's superannuation contributions.

Consequential on-costs

Consequential costs to employment are recognised as liabilities and expenses where the employee benefits to which they relate have been recognised. This includes outstanding amounts of workers' compensation insurance premiums and fringe benefits tax.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

31. Other liabilities

	Consolidated	Consolidated	Parent	Parent
	2025	2024	2025	2024
	\$000	\$000	\$000	\$000
Current				
Liabilities under transfer to acquire or construct				
non-financial assets to be controlled by the entity	500	500	500	500
	500	500	500	500

PARENT AND CONSOLIDATION

Reconciliation of financial assets and corresponding liabilities arising from transfers to acquire or construct non-financial assets to be controlled by the District.

	2025 \$000	2024 \$000
Opening balance of liabilities arising from transfers to acquire / construct non-financial assets to be controlled by the entity	500	-
Add: receipt of cash during the financial year	-	500
Closing balance of liabilities arising from transfers to acquire / construct non- financial assets to be controlled by the entity	500	500

Refer to Note 14 for a description of the District's obligations under transfers received to acquire or construct non-financial assets to be controlled by the District.

The District expects to recognise as income any liability for unsatisfied obligations as at the end of the reporting period during the next financial year.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

32. Commitments

(a) Capital commitments

Aggregate capital expenditure for the acquisition of land and buildings, plant and equipment, infrastructure systems, contracted for at balance date and not provided for:

	Consolidated	Consolidated	Parent	Parent
	2025	2024	2025	2024
	\$000	\$000	\$000	\$000
Not later than one year	13,975	42,139	13,975	42,139
Later than one year and not later than five years	-	12,588	-	12,588
Total (including GST)	13,975	54,727	13,975	54,727

Input tax receivable related to commitments for expenditure

The total 'Capital expenditure commitments' of \$13.98 million as at 30 June 2025 includes input tax credits of \$1.27 million that are expected to be recoverable from the Australian Taxation Office (2024: \$4.98 million).

33. Contingent liabilities and contingent assets

PARENT AND CONSOLIDATION

The District is not aware of any contingent liabilities or assets which would have a material effect on the disclosures in these financial statements. The majority of capital commitments contracted are related to capital works overseen by the Health Administration Corporation which are fully funded.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

34. Adjusted budget review

NSW Health's budget is shown at a consolidated level when presented in parliament each year (i.e. in the NSW Government Budget Papers). The District's budget is not presented in parliament, therefore AASB 1055 Budgetary Reporting is not applicable. Unlike the requirement in AASB 1055 Budgetary Reporting to present original budget information, the District's financial statements present adjusted budget information. The adjusted budgeted amounts are drawn from the initial Service Agreements between the District and the Ministry of Health at the beginning of the financial year, as well as any adjustments for the effects of additional supplementation provided in accordance with delegations to derive a final budget at year end (i.e. adjusted budget). The budget amounts are not subject to audit and, accordingly, the relevant budget entries in the financial statements are unaudited.

PARENT AND CONSOLIDATION

Net result

The actual Net Result was lower than adjusted budget by \$1.19 million, primarily due to:

Employee Related Expenses - favourable to adjusted budget by \$2.73 million.

Visiting Medical Officers - exceeds adjusted budget by \$2.26 million. This is mainly due to chronic shortage of medical staff.

Repairs, Maintenance & Renewals Expenses (included under Operating Expenses) – exceeds adjusted budget by \$1.15 million.

Grants and Subsidies Expenses - favourable to adjusted budget by \$0.67 million.

Total Expenses - favourable to adjusted budget by \$1.96 million.

Own Source Revenue - Made up of note 12, 13, 14 and 16. Unfavourable to adjusted budget by \$1.74 million.

NSW Ministry of Health Recurrent Allocations - Lower than adjusted budget by \$1.39 million.

Assets and liabilities

Total Assets were \$5.48 million more than budget. The variance is mainly due to application of indices to land, buildings and infrastructure amounting to \$6.02 million.

Total Liabilities were \$0.65 million more than the budget. Variance is mainly due to \$0.48 million Payables and \$0.18 million Provisions.

Cash flows

Total Receipts were \$2.44 million lower than budget. Total payments were lower than budget by \$2.61 million. Net Cash flow from operating activities was \$0.17 million more than the budget.

Movements in the level of the Ministry of Health Recurrent Allocation that have occurred since the time of the initial allocation on 1 July 2024 are as follows:

	\$000
Initial allocation, 1 July 2024	93,492
Stronger Communities Investment Pool Escalation	41
New Medical Positions	43
Cross-border Oral Health Professionals to Provide Services in FWLHD	260
Smartchain Funding Allocation in FY2023/24 to FY2025/26	207
FY2024-25 - Towards Zero Suicides initiative - Enhancement to Rural Counselling	323
Pathways to Community Living Initiative (PCLI) - PCLI Stage Two Clinical Enhancement (H21/149765 -	
N-SB22-186)	(46)
Transitional Aged Care Program FY25 Rate Increase	(113)
Single Employer Model in FY2024/25	88

37. Trust funds

PARENT AND CONSOLIDATION

The District holds trust funds of \$96 thousand (2024: \$84 thousand) which are held for the safe keeping of patients' monies, deposits on hired items of equipment and Private Patient Trusts.

These funds are excluded from the financial statements as the District cannot use them for the achievement of its objectives. The following is a summary of the transactions in the trust account.

2025 Category	Cash balance at the beginning of the financial year \$000	Add: receipts \$000	Less: expenditure \$000	Cash balance at the end of the financial year \$000
Private Patient Trust Funds	-	88	(83)	5
Third Party Funds	35	54	(11)	78
Other	49	-	(36)	13
Total trust funds	84	142	(130)	96

2024	Cash balance at the beginning of the financial year	Add: receipts	Less: expenditure	Cash balance at the end of the financial year
Category	\$000	\$000	\$000	\$000
Private Patient Trust Funds	-	85	(85)	-
Third Party Funds	31	5	(1)	35
Other	(9)	58	-	49
Total trust funds	22	148	(86)	84

The following list provides a brief description of the purpose of the trust fund categories.

Category	Purpose
Third Party Funds	A sum of money held in trust on behalf of external parties, e.g. external foundations, volunteer groups and auxiliaries.
Private Patient Trust Funds	The revenue derived from private patient and other billable services provided by Staff Specialists.
Other	Unallocated monies, not included in any of the above categories.

Notes to and forming part of the Financial Statements

38. Financial instruments

The District's principal financial instruments are outlined below. These financial instruments arise directly from the District's operations or are required to finance its operations. The District does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The District's main risks arising from financial instruments are outlined below, together with the District's objectives, policies and processes for measuring and managing risk. Further quantitative and qualitative disclosures are included throughout these financial statements.

The A/Chief Executive has overall responsibility for the establishment and oversight of risk management and reviews and agrees policies for managing each of these risks. Risk management policies are established to identify and analyse the risks faced by the District, to set risk limits and controls and to monitor risks. Compliance with policies is reviewed on a continuous basis.

(a) Financial instrument categories

PARENT AND CONSOLIDATION

		Carrying Amount	Carrying Amount
		2025	2024
Class	Category	\$000	\$000
Financial assets			
Cash and cash equivalents (Note 20) Amortised cost	1,466	1,495
Receivables (Note 21) ¹	Amortised cost	1,601	2,312
Total financial assets		3,067	3,807
Financial liabilities			
Borrowings (Note 29)	Financial liabilities measured at amortised cost	1,426	672
	Financial liabilities measured at amortised		
Payables (Note 28) ²	cost	11,883	12,103
Total financial liabilities		13,309	12,775

Notes

The District determines the classification of its financial assets and liabilities after initial recognition and, when allowed and appropriate, re-evaluates this at each financial year end.

¹ Excludes statutory receivables and prepayments (i.e. not within scope of AASB 7 Financial Instruments: Disclosures).

² Excludes statutory payables and unearned revenue (i.e. not within scope of AASB 7 Financial Instruments: Disclosures).

38. Financial instruments (continued)

(b) Derecognition of financial assets and financial liabilities

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the contractual rights to the cash flows from the financial assets expire; or if the entity transfers its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass through arrangement and either:

- The District has transferred substantially all the risks and rewards of the asset; or
- The District has neither transferred nor retained substantially all the risks and rewards for the asset, but has transferred control.

When the District has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. Where the District has neither transferred nor retained substantially all the risks and rewards or transferred control, the asset continues to be recognised to the extent of the District's continuing involvement in the asset. In that case, the District also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the District has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the District could be required to repay.

A financial liability is derecognised when the obligation specified in the contract is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the net result.

(c) Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

(d) Financial risk

i. Credit risk

Credit risk arises when there is the possibility that the counterparty will default on their contractual obligations, resulting in a financial loss to the District. The maximum exposure to credit risk is generally represented by the carrying amount of the financial assets (net of any allowance for credit losses).

Credit risk arises from financial assets of the District, including cash, receivables and authority deposits. No collateral is held by the District. The District has not granted any financial guarantees.

Credit risk associated with the District's financial assets, other than receivables, is managed through the selection of counterparties and establishment of minimum credit rating standards. Authority deposits held with NSW TCorp are guaranteed by the State.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

38. Financial instruments (continued)

(d) Financial risk (continued)

i. Credit risk (continued)

The District considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the District may also consider a financial asset to be in default when internal or external information indicates that the District is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the District.

The District applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables and other receivables.

To measure the expected credit losses, trade receivables, other receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on historical observed loss rates. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The District has identified relevant factors, and accordingly has adjusted the historical loss rates based on expected changes in these factors.

Trade receivables, other receivables and contract assets are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others a failure to make contractual payments for a period of greater than 90 days past due.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

38. Financial instruments (continued)

(d) Financial risk (continued)

i. Credit risk (continued)

Accounting policy for impairment of trade receivables and other financial assets

Receivables - trade receivables, other receivables and contract assets

The loss allowance for trade receivables, other receivables and contract assets as at 30 June 2025 and 30 June 2024 was determined as follows:

PARENT AND CONSOLIDATION

30 June 2025	Current	<30 days	30-60 days	61-90 days	>91 days	Total
Expected credit loss rate	0.09%	0.00%	0.42%	0.00%	23.97%	3.65%
Estimated total gross carrying amount ¹	1,106	27	236	35	242	1,646
Expected credit loss	1	-	1	-	58	60

30 June 2024	Current	<30 days	30-60 days	61-90 days	>91 days	Total
Expected credit loss rate	0.39%	2.22%	7.69%	5.00%	7.95%	2.01%
Estimated total gross carrying amount ¹	778	45	52	20	151	1,046
Expected credit loss	3	1	4	1	12	21

Notes

The District is not materially exposed to concentrations of credit risk to a single trade debtor or group of debtors as at 30 June 2025 and 30 June 2024.

ii. Liquidity risk

Liquidity risk is the risk that the District will be unable to meet its payment obligations when they fall due. The District continuously manages risk through monitoring future cash flows and maturities planning to ensure adequate holding of high quality liquid assets. The objective is to maintain a balance between continuity of funding and flexibility through the use of loans and other advances.

The District has negotiated no loan outside of arrangements with the Ministry of Health or NSW Treasury.

¹ The analysis excludes statutory receivables and prepayments as these are not within the scope of AASB 7 Financial Instruments: Disclosures. Therefore the 'total' will not reconcile to the receivables total in Note 21.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

38. Financial instruments (continued)

(d) Financial risk (continued)

ii. Liquidity risk

During the current and prior year, there were no defaults of loans payable. No assets have been pledged as collateral. The District's exposure to liquidity risk is deemed insignificant based on prior periods' data and current assessment of risk.

The District has exposure to liquidity risk. However, the risk is minimised by the service agreement with the Ministry of Health, as the annual service agreement requires local management to control its financial liquidity and in particular meet benchmarks for the payment of creditors. Where the District fails to meet service agreement performance standards, the Ministry of Health as the state manager can take action in accordance with annual performance framework requirements, including providing financial support and increased management interaction (refer Note 1).

Liabilities are recognised for amounts due to be paid in the future for goods or services received, whether or not invoiced. For all suppliers, that has a correctly rendered invoice, a matched purchase order and where goods have been received, a 30 day payment term is applied.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

38. Financial instruments (continued)

(d) Financial risk (continued)

ii. Liquidity risk (continued)

PARENT AND CONSOLIDATION

The table below summarises the maturity profile of the District's financial liabilities together with the interest rate exposure.

Maturity Analysis and interest rate exposure of financial liabilities

			Interes	t Rate Expo	sure	Mat	Maturity Dates	
	EIR³ %	Nominal Amount ¹ \$000	Fixed Interest Rate \$000	Variable Interest Rate \$000	Non - Interest Bearing \$000	< 1 Yr \$000	1-5 Yr \$000	> 5Yr \$000
2025		****	****	****	****	****		
Payables:								
- Creditors ²		11,883	-	-	11,883	11,883	-	-
Borrowings:								
- Lease liabilities	6.32	1,512	1,512	-	-	585	876	51
		13,395	1,512	-	11,883	12,468	876	51
2024								
Payables:								
- Creditors ²		12,103	-	-	12,103	12,103	-	-
Borrowings:								
- Lease liabilities	6.69	736	736	_	-	263	473	
		12,839	736	-	12,103	12,366	473	_

Notes:

¹ The amounts disclosed are the contractual undiscounted cash flows of each class of financial liabilities based on the earliest date on which the District can be required to pay. The tables include both interest and principal cash flows and therefore will not reconcile to the Statement of Financial Position.

² Excludes statutory payables and unearned revenue (i.e. not within scope of AASB 7 Financial Instruments: Disclosures).

³ Weighted Average Effective Interest Rate (EIR).

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

38. Financial instruments (continued)

iii. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The District has no exposure to foreign currency risk and does not enter into commodity contracts

The effect on net result and equity due to a reasonably possible change in risk variable is outlined in the information below, for interest rate risk and other price risk. A reasonably possible change in risk variable has been determined after taking into account the economic environment in which the District operates and the time frame for the assessment (i.e. until the end of the next annual reporting period). The sensitivity analysis is based on risk exposures in existence at the Statement of Financial Position date. The analysis is performed on the same basis as for 2024. The analysis assumes that all other variables remain constant.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Exposure to interest rate risk arises primarily through the District's interest bearing liabilities. This risk is minimised by undertaking mainly fixed rate borrowings, primarily through NSW TCorp.

The District does not account for any fixed rate financial instruments at fair value through profit or loss or at fair value through other comprehensive income. Therefore, for these financial instruments, a change in interest rates would not affect the carrying value or interest paid/earned. A reasonably possible change of +/- 1% is used, consistent with current trends in interest rates (based on official Reserve Bank of Australia interest rate volatility over the last five years). The basis will be reviewed annually and amended where there is a structural change in the level of interest rate volatility.

However, the District is not permitted to borrow external to the Ministry of Health (except energy loans which are negotiated through NSW Treasury). Both NSW Treasury and the Ministry of Health loans are set at fixed rates and therefore are generally not affected by fluctuations in market rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates:

PARENT AND CONSOLIDATION

		2025 \$000		2024 \$000	
	-1%	1%	-1%	1%	
Net result	(15)	15	(15)	15	
Equity	(15)	15	(15)	15	

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

39. Related party disclosures

PARENT AND CONSOLIDATION

(a) Key management personnel compensation

Key management personnel compensation is as follows:

	2025	2024
	\$000	\$000
Short-term employee benefits	175	175
Post-employment benefits	20	19
	195	194

During the financial year, Far West Local Health District obtained key management personnel services from the immediate parent and incurred \$0.31 million (2024: \$0.37 million) for these services. This amount does not form part of the key management personnel compensation disclosed above.

The District's key management personnel comprise its board members and chief executive / acting chief executive from time to time during the year.

Compensation for the Minister for Health is paid by the Legislature and is not reimbursed by the Ministry of Health and its controlled entities. Accordingly no such amounts are included in the key management personnel compensation disclosures above.

Remuneration for the Secretary and Deputy Secretaries are paid by the Ministry of Health and is not reimbursed by the health entities. Accordingly no such amounts are included in the key management personnel compensation disclosures above.

(b) Transactions with key management personnel and their close family members

There were no transactions with key management personnel and their close family members (2024: \$Nil).

(c) Transactions with the ultimate parent

There were no transactions with the ultimate parent during the financial period (2024: \$Nil).

(d) Transactions the District had with government related entities during the financial year

During the financial year and comparative year, the District entered into the various transactions with other entities consolidated as part of the Ministry of Health (the immediate parent) and the NSW Total State Sector (the ultimate parent) within the normal course of business.

The following operating expenses were incurred with entities controlled by the immediate parent:

- Health Administration Corporation (includes Ambulance Service of NSW, eHealth NSW, Health Infrastructure,
 Health System Support Group, HealthShare NSW and NSW Health Pathology) provides shared services for the
 majority of patient transport services, information management services, domestic supplies and services, food
 supplies and corporate support services.
- Health Administration Corporation provides some specialised services which includes pathology related costs.
- Various grants and subsidies towards projects and services.

Notes to and forming part of the Financial Statements

for the year ended 30 June 2025

39. Related party disclosures (continued)

(d) Transactions the District had with government related entities during the financial year (continued)

The following operating expenses were incurred with entities controlled by the ultimate parent:

- Audit of the statutory financial statements
- Legal services
- Utilities, including electricity, gas and water expenses
- Insurance costs

The following revenues were earned from entities controlled by the immediate parent:

- Revenue from recurrent and capital allocations
- Various grants and contributions towards services and other projects
- Other revenue from provision of travel bookings

The following revenues were earned from entities controlled by the ultimate parent:

- Motor Accident Authority third party revenue received from the State Insurance Regulatory Authority (SIRA)
- Various grants and other contributions towards research and other projects
- Motor vehicle rebates
- Insurance refunds
- Revenue from acceptance of long service leave liabilities and defined benefit superannuation

Assets and liabilities as follows:

- Receivables and payables in respect of the above noted related party revenue and expense transactions
- The majority of the construction of property, plant and equipment is managed and overseen by Health Administration Corporation
- The majority of capital commitments contracted but not provided for related to capital works overseen by the Health Administration Corporation.

40. Events after the reporting period

No other matters have arisen subsequent to balance date that would require these financial statements to be amended.

END OF AUDITED FINANCIAL STATEMENTS
