Dermatology

The Workforce
A Dermatologist is a qualified medical specialist who specialises in the diagnosis, treatment and prevention of skin disease and skin cancers. The Australasian College of Dermatologists (ACD) is accredited by the Australian Medical Council (AMC) to deliver dermatology training.

The Future in NSW – Workforce Planning to 2030

Workforce projections are provided for a low and high demand scenario. Where requirements for both scenarios are met without the need for additional fellows, the projected “No Growth” scenario workforce data is provided.

Workforce Modelling Considerations

- Workforce modelling is based on current models of care. Any change in the models may impact on requirements.
- Any changes to current training programs will affect the workforce modelling outcome.
- Workforce modelling is based on current workforce hours profile by age co-hours. Any changes to hours worked by future clinicians will affect the model.
- There is an accepted error rate of plus or minus two per cent within workforce modelling.
- The model does not address any mal-distribution either by location (rural or regional) or sector (public or private).
