COLD CHAIN DECLARATION – Please complete to ensure your order is processed			
		Yes	No
1	All vaccines will be administered according to NSW Health's vaccine eligibility criteria (previous page) and the NSW Immunisation Program Schedule		
2	Each vaccine dose administered in this practice will be notified to the Australian Immunisation Register		
3	This facility complies with cold chain requirements in the National Vaccine Storage Guidelines - Strive for Five (3rd edition, published June 2019)		
4	All vaccines are stored in a purpose-built vaccine specific refrigerator		
5	Vaccine fridge temperatures (current, minimum and maximum) are checked and recorded twice daily, thermometer reset and all records are kept according to medico-legal requirements.		
6	All vaccine fridges are continuously data logged using an electronic data logger, set to record at 5 minute intervals and the data logging report is downloaded, saved to medico-legal requirements and reviewed once a week and/or if there is a min/max reading of below +2°C or above +8°C		
7	In the event of a cold chain breach, I will call my local Public Health Unit on 1300 066 055 for advice before taking any further action.		
8	The vaccine fridge(s) temperature has/have been between +2°C and +8°C since the last vaccine order (this excludes excursions up to +12°C for less than 15 minutes when opening the fridge and excludes cold chain breaches that have already been notified to the Public Health Unit).		
9	At least one staff member has successfully completed the NSW Health Vaccine Storage and Cold Chain Management online training module
