

Affordable IVF

The NSW Government is investing **\$42 million** over four years to:

Introduce a **\$500** rebate to assist with costs of pre-IVF fertility testing.

Expand the availability of lower cost IVF treatment at government supported IVF clinics.

Establish a state-wide fertility preservation service for younger cancer patients

These initiatives will improve affordability and accessibility of services for people with fertility issues and those seeking IVF treatment.

The Pre-IVF Fertility Testing rebate

Apply for a rebate on your out-of-pocket pre-IVF fertility testing expenses, and receive **\$500** through Service NSW. Visit www.health.nsw.gov.au/affordable-ivf for more information.

Lower Cost IVF Treatment

Around **6,000** women will be able access lower cost IVF treatment between **January 2020** and **June 2023**

Fertility Preservation Service for Younger Cancer Patients

NSW is providing Australia's first dedicated state-wide fertility preservation service for younger cancer patients.
