invested
(2022/23)

70 places
4 LHDs
8 sites

This program saved my life. Simple as that. I could be homeless, still on drugs. (Consumer)

Who was supported during the evaluation period?

101
consumers

99% primary diagnosis of schizophrenia or schizoaffective disorder

74% mental health, guardianship or financial management order

Over 33% Forensic Order

What makes HASI Plus work?

- safe and secure housing
- intensive on-site supports
- strong local partnerships
- flexible and person centred

I loved the people, the support. I loved their confidence in me and the way they gave me support to go out and do sports and swimming... and taught me how to fit in more into society.
(Consumer)

What are the outcomes for consumers?

Hospital admissions for mental health

reduced by
56%

Length of stay (days) in hospital

reduced by
80%

Almost 50% of exits were to community living

Average cost per person is significantly lower than hospital admission or comparable programs
