March 2020

October-December Highlights

Ongoing reporting of seclusion and restraint performance

To improve the transparency, detail, and frequency of publication of seclusion and restraint data, the Bureau of Health Information began reporting seclusion and restraint performance in *Healthcare Quarterly* in September 2019.

Healthcare Quarterly is a series of reports that track activity and performance of NSW Health services. The reports are publicly available at http://www.bhi.nsw.gov.au/BHI_reports/healthcare_quarterly.

Quarterly reporting supplements existing public reporting via the Australian Institute of Health and Welfare (AIHW) and NSW Health's Annual Report.

Ongoing reporting of seclusion and restraint performance will now occur under the Bureau of Health Information's *Healthcare Quarterly* report, AIHW and NSW's Annual Report.

ACTIONS NSW HEALTH IS TAKING

(as at 31 December 2019)

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
Culture and leadership				
NSW Health must establish and adopt an integrated leadership development framework applicable to all staff at all stages of their career	1.1 Embed the NSW Health Leadership Framework for all NSW Health mental health staff at all stages of their career (with mental health staff as the initial priority)	Oct-18		<p>The Health Education and Training Institute (HETI) has audited NSW mental health staff participation in leadership programs to establish a baseline for building participation.</p> <p>The five domains of the Leadership Framework are: achieving outcomes; developing and leading self; engaging people and building relationships; partnering and collaborating across boundaries; and transforming the system.</p> <p>All districts and networks have embedded the NSW Health Leadership Framework for all mental health staff.</p>
Patient safety				
NSW Health must adopt a mental health patient safety program, informed by contemporary improvement science	2.1 Implement a statewide mental health patient safety program	Jun-19		<p>The Mental Health Patient Safety Program, led by the Clinical Excellence Commission commenced in April 2019. It is a two year professional development program equipping people with the skills they need to support mental health teams in their safety and quality improvement work.</p> <p>The Mental Health Improvement Coach Program supports 50 Improvement Coaches develop leadership, coaching and quality improvement capabilities to enable them to support frontline team with their safety and quality improvement priorities</p>
Accountability and governance				
The Director of Mental Health should be a member of the district or network senior executive and report to the Chief Executive	3.1 Review senior executive structures and include Directors of Mental Health as members of the senior executive and report to Chief Executive	Jul-18		<p>This action ensures strong, visible and engaged mental health leadership at the highest levels of health services. It has been fully implemented by all districts and networks in NSW.</p>
District and network clinical governance processes should include emergency department and mental health seclusion and restraint performance together	4.1 Review existing seclusion and restraint clinical governance processes and include accountability for both emergency departments and mental health units	Jan-19		<p>Existing district and network clinical governance processes have been reviewed to improve integration of emergency department and mental health unit seclusion and restraint performance.</p> <p>All districts and networks have implemented this action.</p>
All mental health inpatient services must have 24-hour, everyday on-site supervision from accountable management representatives. This supervision must include in-person rounding on every shift	5.1 Review afterhours management practices and ensure all mental health inpatient services have 24/7 on-site supervision from accountable managerial staff, including in-person supervision visits to units on every shift	Jun-18		<p>Proactive in-person rounding with frontline staff safeguards good practice, assists in complex decision-making and ensures all staff are both supported and accountable.</p> <p>This action is completed in all districts and networks.</p>

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
NSW Health should have a single, simplified, principles-based policy that works towards the elimination of seclusion and restraint	6.1 Develop a single, culturally appropriate NSW Health policy towards the elimination of seclusion and restraint that recognises human rights and trauma-informed care principles	Apr-19		<p>The Mental Health Branch, Ministry of Health is leading the review of existing seclusion and restraint policy and guidelines to inform a single new policy.</p> <p>The Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability and the Royal Commission into Aged Care Quality and Safety have highlighted the use of restrictive practices in those settings. In this context, the Mental Health Branch is using the policy review as an opportunity to align requirements across care settings. This is requiring additional consultation and revision</p> <p>It has been approved by the Deputy Secretary. Publication was delayed for publication due to a requirement to consult with the Medical Services Committee. The Committee has reviewed the policy and provided feedback on 28 February 2020. It is anticipated the policy will be published by end of March 2020.</p>
There should be an immediate reinvigoration of the implementation of the NSW Health Smoke-free Health Care Policy (PD2015_003), which includes increasing the knowledge and use of nicotine replacement therapy	7.1 Use the new Smoking Cessation Framework for NSW Health Services to overcome barriers to the delivery of effective smoking cessation interventions for mental health consumers in declared emergency departments and mental health facilities	Oct-18		<p>All NSW health professionals have a role in providing effective, evidence-based treatments for consumers who are nicotine-dependent.</p> <p>The Cancer Institute NSW presented the Smoking Cessation Framework to mental health clinical directors in May 2018 to support local implementation.</p> <p>The Framework supports districts and networks to manage nicotine dependence among people accessing services and also to implement smoking cessation interventions. Districts and networks are responsible for implementing a range of nicotine replacement therapy (NRT) products and interventions in declared emergency departments and mental health facilities. This may include lozenges, inhalers and gum.</p> <p>All districts and networks have reported that these arrangements are in place in their services.</p>

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
Workforce				
NSW Health should develop and implement minimum standards and skill requirements for all staff working in mental health	8.1 Finalise and implement the NSW Strategic Framework for Mental Health and Workforce Plan 2018-2022	Jul-18		<p>Extensive consultation during the development of the Framework prepared the way for implementation. The Framework was released on 27 September 2018 and an implementation plan was released on 1 January 2019. Both documents are publicly available on the NSW Health website.</p> <p>Implementation of the plan has now commenced. The Mental Health Training Needs Analysis has been completed. Work is underway on the Psychiatry Workforce Plan.</p> <p>The <i>NSW Strategic Framework and Workforce Plan for Mental Health 2018 - 2022: Implementation Plan</i> guides the delivery of implementation actions over the next four years.</p>
	8.2 Include culturally appropriate, recovery-oriented, trauma-informed care principles training for all mental health staff	Feb-19		All districts and networks have included culturally appropriate, recovery-oriented, trauma-informed care principles training for all mental health staff.
	8.3 Provide ongoing clinical supervision to all mental health staff to ensure learning is transferred to practice	Apr-19		<p>The <i>NSW Strategic Framework for Mental Health and Workforce Plan 2018-2022</i> supports local health districts and specialty networks to provide clinical supervision and mentoring according to professional guidelines and registration requirements. HETI provides clinical supervision guides for allied health and nursing professionals. Clinical supervision is an important component of providing safe and quality care.</p> <p>All district/networks have completed this action.</p>
NSW Health should ensure that recruitment and performance review processes include appraisal of values and attitudes of all staff working with people with a mental illness	9.1 Ensure statewide systems and training in recruitment and performance development support the appraisal of NSW Health CORE values of Collaboration, Openness, Respect and Empowerment	Mar-19		<p>HETI has reviewed and confirmed all relevant training includes the CORE values. HETI works closely with local health districts and specialty health networks to ensure delivery of health education and training across the NSW Health system is aligned to the NSW Health CORE values.</p> <p>HETI also provides CORE Chat workshops to assist NSW Health staff to identify solutions and bring about positive change to improve workplace culture.</p>
	9.2 Performance appraisals for all staff working with people with a mental illness include culturally sensitive, recovery-oriented and trauma-informed care principles	Apr-19		As of 31 December 2019, all districts and networks have embedded culturally sensitive trauma-informed practice and recovery oriented care into workforce capabilities.

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
The peer workforce should be developed and professionalised, with the same supports and accountabilities as other disciplines. The number of positions should be increased, however only after the supports and accountabilities are in place	10.1 Develop a NSW Peer Workforce Framework to guide development and support the professionalisation of the peer workforce	Jul-19		<p>The NSW Peer Workforce Framework will guide development of and support for the emerging peer workforce in NSW.</p> <p>This action was delayed due to difficulties in recruitment to the NSW Peer Workforce Coordinator Position. The position has now been filled and work to scope the NSW Peer Workforce Framework has begun. It is anticipated that this work will continue into 2021 to allow for consultation with consumers and carers.</p>
	10.2 Recruit and train new peer worker roles under the Mental Health Reform	Jul-18		<p>Supporting the growth and recognition of the peer workforce as an emerging profession is crucial in helping people live contributing lives and in building a stronger and more resilient mental health system.</p> <p>All districts and networks have increased their recruitment of peer workers.</p>
Consumer and carer participation				
Meaningful engagement with consumers and their families should occur in assessment and care planning, particularly in developing personal plans to prevent the use of restrictive practices	11.1 Strengthen consumer and family engagement in assessment and care planning, informed by the Mental Health Commission of NSW's Lived Experience Framework	Apr-19		<p>The Lived Experience Framework provides guidance on how people with lived experience of mental health issues, their families and carers can work with service providers as equal partners in service design, delivery and evaluation.</p> <p>The Agency for Clinical Innovation has also developed practical solutions and key principles to strengthen consumer and family engagement, informed by the Framework.</p> <p>All districts and networks have completed this action to strengthen care planning with consumers and families.</p>
Consumer and carer co-design and systematic engagement should occur at all levels of the health service	12.1 Develop resources to support successful mental health co-design processes, informed by the Mental Health Commission of NSW's Lived Experience Framework	Apr-19		<p>The Agency for Clinical Innovation launched two resources to strengthen collaborative practices between consumers, carers and service providers on 9 August 2019. <i>A Guide to Build Co-design Capability</i> is designed to support partnerships to make healthcare improvements using co-design methodology. <i>Building Collaborative Cultures of Care</i> is an online toolkit to support implementation of strategies, ideas and tools to increase the involvement of people with lived experience in the design, delivery and evaluation of mental health services. Both resources are available on the Agency for Clinical Innovation website.</p>
	12.2 Routinely include consumers and families in key committees, projects and workgroups	Jun-19		<p>All districts and networks use the expertise of consumers and families in local quality improvement.</p> <p>The electronic version of the Your Experience of Service consumer survey (eYES) has been launched. This allows consumers to provide feedback about their experiences via their computer, smart phone or tablet. eYES makes it easier for consumers to provide feedback.</p> <p>The Carer Experience of Service (CES) asks about carers' experiences of mental health services. The CES was rolled out across NSW mental health services in 2018. An electronic version is in development.</p>

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
Data				
NSW Health should improve the transparency, detail, and frequency of publication of seclusion and restraint data at the state and local level	13.1 Use local data to inform quality improvement to reduce seclusion and restraint	Apr-19		<p>Access to user-friendly information is necessary for safety and quality improvement and helps staff monitor progress towards the elimination of seclusion and restraint.</p> <p>All districts/networks are using local data to inform safety and quality improvement initiatives in partnership with consumers and carers.</p>
	13.2 Further develop state level reporting of seclusion and restraint data	May-19		<p>The Bureau of Health Information's annual <i>Healthcare in Focus</i> report was released on 21 August 2019. The report focused on people's use and experience of mental health care in NSW. It included a section on seclusion and restraint data.</p> <p>In addition, approaches to improve public reporting of seclusion and restraint were covered in the Bureau of Health Information's <i>Measurement Matters</i> and <i>Healthcare Quarterly</i> reports in September 2019. This supports new quarterly public reporting on seclusion and restraint.</p>
The NSW seclusion and restraint data collection and reporting should include declared emergency departments	14.1 Collect and report seclusion and restraint data from declared emergency departments	Jun-19		The collection of data from all districts'/ networks' declared emergency departments has commenced.
The built and therapeutic environment				
All emergency departments should have clinical pathways for people presenting with mental health issues that are reflective of their needs. There needs to be a pathway that does not include the use of safe assessment rooms	15.1 Ensure clinical pathways in emergency departments reflect the needs of people with mental illness, including alternatives to the use of safe assessment rooms	Jul-19		<p>The Agency for Clinical Innovation (ACI) have prepared Safe Assessment Room Guidelines for publication in January 2020. The guidelines describe appropriate use, governance and design of the rooms in emergency departments. It also stresses that those rooms are not intended to be used for seclusion.</p> <p>All districts/networks are expected to involve consumers, carers and families in reviewing local clinical pathways for people with mental health problems in emergency departments.</p> <p>As of 31 December 2019, fifteen districts and networks have these pathways in place. Three districts and networks have yet to complete this action in all emergency departments:</p> <ul style="list-style-type: none"> • Illawarra Shoalhaven • Mid North Coast • Southern NSW <p>The Ministry of Health is working with these districts to finalise completion. The districts reported that work was underway to review pathways and models of care are due by April 2020.</p>

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
There should be an immediate review of the design and use of safe assessment rooms using a co-design methodology	16.1 Review the use and design of safe assessment rooms in emergency departments using a co-design and redesign methodology	Feb-19		<p>As of 31 December 2019, the Agency for Clinical Innovation was finalising the state-wide Safe Assessment Room Guidelines for publication in January 2020.</p> <p>The consultation on the draft guidelines included Being, Mental Health Carers NSW, the Official Visitors Program and the NSW Consumer Peer Worker Committee.</p> <p>The draft guidelines are informing partnership work for the review of safe assessment rooms. The review commenced with an audit to identify the number and location of safe assessment rooms in NSW.</p>
All future capital planning of mental health facilities should include consumer co-design and be informed by evidence on preventing seclusion and restraint	17.1 All capital planning of mental health facilities is informed by evidence based principles and clearly demonstrates consumer co-design	Aug-18		Health Infrastructure has confirmed that all current and future capital planning projects for mental health facilities will involve consumer representatives. Representatives from Health Infrastructure participated in a training workshop in July 2018 on using co-design to improve mental health units.
All acute mental health units and declared emergency departments should conduct a review of their facilities and implement minor capital works and equipment purchases to improve the therapeutic potential	18.1 Using a co-design approach, coordinate the implementation of minor capital works and equipment purchases to improve the therapeutic environment in LHD/ SHN mental health facilities	Dec-18		<p>All successful proposals for buying furniture, fixtures and equipment have been approved to commence procurement.</p> <p>All successful proposals for minor capital works have also been approved after confirmation of costings and adherence to NSW procurement guidelines.</p> <p>Health Infrastructure is working closely with the relevant districts/networks to ensure completion.</p>
All mental health units should have a multidisciplinary team with the skills to deliver a therapeutic program and environment on an extended-hours basis	19.1 Ensure multidisciplinary teams deliver therapeutic programs on extended-hours basis	Apr-19		<p>As of 31 December 2019, seventeen districts/ networks are now providing therapeutic programs in mental health units on an extended-hours basis.</p> <p>In Far West Local Health District, the Consumer Engagement Coordinator has been working with the Nursing Unit Manager in the Broken Hill Mental Health Inpatient Unit to develop a therapeutic program. Far West has recently employed 4 Aboriginal Health Practitioners who will prioritise after hours therapeutic programs, with a focus on aboriginal healing and wellbeing. The anticipated completion date is April 2020.</p>
ADDITIONAL SUPPORTING ACTIONS				
Local leadership				
LHD and SHN seclusion and restraint prevention action plans	Each LHD and SHN will co-design a culturally appropriate seclusion and restraint prevention action plan for their service	Sep-18		<p>All NSW Health organisations have been asked to develop, in partnership with consumers and carers, a local seclusion and restraint prevention action plan for their service.</p> <p>The local plans will guide further safety and quality improvements that support the reduction of restrictive practices.</p> <p>All districts/networks have completed their local action plans.</p>

RECOMMENDATION	ACTION	MILESTONE	TRACKING	WHAT WE ARE DOING
Supporting positive cultures of care				
Community of practice to prevent seclusion and restraint	NSW Health will establish a state-wide seclusion and restraint prevention community of practice to share knowledge and refine improvements. Communities of practice are groups of people who interact together to address a common concern or area of shared interest.	Jul-18		A community of practice has been established. All health districts and networks have nominated a minimum of three representatives to support implementation and participate in a network to support improvement. This includes a senior manager, peer worker and consumer representative. The community of practice members have been actively sharing ideas and resources to improve services.
