Service Agreement 2023-24

An agreement between the Secretary, NSW Health and Sample Local Health District for the period 1 July 2023 - 30 June 2024

NSW Health Service Agreement – 2023-24

Principal purpose

The principal purpose of the Service Agreement is to set out the service and performance expectations for funding and other support provided to Sample Local Health District (the Organisation), to ensure the provision of equitable, safe, high quality and human-centred healthcare services. It facilitates accountability to government and the community for service delivery and funding.

The agreement articulates direction, responsibility and accountability across the NSW Health system for the delivery of high quality, effective healthcare services that promote, protect and maintain the health of the community, in keeping with NSW Government and NSW Health priorities. Additionally, it specifies the service delivery and performance requirements expected of the Organisation that will be monitored in line with the *NSW Health Performance Framework*.

The *Health Services Act 1997* allows the Health Secretary to enter into performance agreements with public health organisations in relation to the provision of health services and health support services (s.126).

Through execution of the agreement, the Secretary agrees to provide the funding and other support to the Organisation as outlined in this Service Agreement.

1. Legislation, governance and performance framework

1.1 Legislation

The *Health Services Act 1997* (the Act) provides a legislative framework for the public health system, including setting out purposes and/or functions in relation to Local Health Districts (ss. 8, 9, 10).

Under the Act, the Health Secretary's functions include: the facilitation of the achievement and maintenance of adequate standards of patient care within public hospitals, provision of governance, oversight and control of the public health system and the statutory health organisations within it, as well as in relation to other services provided by the public health system, and to facilitate the efficient and economic operation of the public health system (s.122).

Under the Act, the Minister may attach conditions to the payment of any subsidy (or part of any subsidy) (s.127). As a condition of subsidy, all funding provided for specific purposes must be used for those purposes unless approved by the Health Secretary.

1.2 Variation of the agreement

The Agreement may be amended at any time by agreement in writing between the Organisation and the NSW Ministry of Health.

The Agreement may also be varied by the Secretary or the Minister in the exercise of their general powers under the Act, including determination of the role, functions and activities of Local Health Districts (s. 32).

Any updates to finance or activity information further to the original contents of the Agreement will be provided through separate documents that may be issued by the Ministry of Health in the course of the year.

1.3 Conditions of Subsidy

The Organisation is required to comply with the various Conditions of Subsidy set out in the *Financial Requirements and Conditions of Subsidy (Government Grants)*.

1.4 National Agreement

The National Cabinet has reaffirmed that providing universal healthcare for all Australians is a shared priority and agreed in a Heads of Agreement for public hospitals funding from 1 July 2020 to 30 June 2025. That Agreement maintains activity based funding and the national efficient price.

1.5 Governance

The Organisation must ensure that all applicable duties, obligations and accountabilities are understood and complied with, and that services are provided in a manner consistent with all NSW Health policies, procedures, plans, circulars, inter-agency agreements, Ministerial directives and other instruments and statutory obligations.

1.5.1 Clinical governance

NSW public health services are accredited against the <u>National Safety and Quality Health Service Standards</u>. The Organisation will complete a Safety and Quality Account inclusive of an annual attestation statement as outlined in the Standards (Version 2.0) by the 31 October each year.

The <u>Australian Safety and Quality Framework for Health Care</u> provides a set of guiding principles that can assist health services with their clinical governance obligations.

The NSW Health <u>Patient Safety and Clinical Quality Program</u> (PD2005_608) provides an important framework for improvements to clinical quality.

1.5.2 Corporate governance

The Organisation must ensure services are delivered in a manner consistent with the <u>NSW Health</u> <u>Corporate Governance and Accountability Compendium</u>.

1.5.3 Procurement governance

The Organisation must ensure procurement of goods and services complies with <u>NSW Health</u> Procurement policy (PD2022_020).

1.5.4 Aboriginal Procurement Policy

The NSW Government supports employment opportunities for Aboriginal people, and the sustainable growth of Aboriginal businesses by driving demand via government procurement of goods, services and construction. NSW Government agencies must apply the <u>Aboriginal Procurement Policy</u> to all relevant procurement activities.

1.5.5 Public health emergency preparedness and response

The Organisation must comply with standards set out in <u>Public Health Emergency Response Preparedness</u> <u>Minimum Standards</u> (PD2019_007) and adhere to the roles and responsibilities set out in <u>Early Response</u> <u>to High Consequence Infectious Disease</u> (PD2023_008)

1.5.6 Performance Framework

Service Agreements are a central component of the NSW Health Performance Framework which documents how the Ministry of Health monitors and assesses the performance of public sector health services to achieve expected service levels, financial performance, governance and other requirements.

2. Strategic priorities

The delivery of NSW Health strategies and priorities is the responsibility of the Ministry of Health, health services and support organisations. These are to be reflected in the strategic, operational and business plans of these entities.

It is recognised that the Organisation will identify and implement local priorities to meet the needs of their respective populations taking into consideration the needs of their diverse communities and alignment with the broader NSW Health strategic priorities. In doing so they will:

- · work together with clinical staff about key decisions, such as resource allocation and service planning
- engage in appropriate consultation with patients, carers and communities in the design and delivery of health services.

2.1 Future Health: Strategic Framework

The Future Health Strategic Framework is the roadmap for the health system to achieve NSW Health's vision.

The framework is a reflection of the aspirations of the community, our patients, workforce and partners in care for how they envisage our future health system. The Strategic Framework and delivery plans will guide the next decade of care in NSW from 2022-32, while adapting to and addressing the demands and challenges facing our system. There will be specific activities for the Ministry of Health, health services and support organisations to deliver as we implement the Future Health strategy, and services should align their strategic, operational and business plans with these Future Health directions.

2.2 Regional Health Strategic Plan 2022-32

The *Regional Health Strategic Plan* (the Plan) outlines NSW Health's strategies to ensure people living in regional, rural and remote NSW can access high quality, timely healthcare with excellent patient experiences and optimal health outcomes. The Plan aims to improve health outcomes for regional, rural and remote NSW residents over the next decade, from 2022 to 2032.

Regional NSW encompasses all regional, rural and remote areas of NSW. There are nine regional local health districts in NSW: Central Coast, Far West, Hunter New England, Illawarra Shoalhaven, Mid North Coast, Murrumbidgee, Northern NSW, Southern NSW and Western NSW. Some areas of other local health districts may also be considered regional for the purpose of the plan such as South Western Sydney and Nepean Blue Mountains. The Regional Health Strategic Plan is also supported by the metropolitan local health districts and by the Specialty Health Networks which have patients in many regional locations.

The Regional Health Plan Priority Framework outlines a suite of targets for each Strategic Priority, to be achieved in the first time horizon of the Plan (years 1-3).

2.3 NSW Government Priorities

There are several government priorities that NSW Health is responsible for delivering. These government priorities are usually reported to the Premier's Department or The Cabinet Office through NSW Health Executive. Progress on government priorities allocated to Health is monitored by the Ministry of Health including:

- Election Commitments
- Charter Letter commitments
- Inquiry recommendations

2.4 NSW Health Outcome and Business Plan

The NSW Health Outcome and Business Plan is an agreement between the Minister for Health, the Secretary, NSW Health and the NSW Government setting out the outcomes and objectives that will be the focus for the current period. In 2022 NSW Health's Outcome Structure was realigned to the Future Health strategic framework. The revised state outcomes are:

- People are healthy and well
- Safe care is delivered within our community
- · Safe emergency care is delivered
- · Safe care is delivered within our hospitals
- Our staff are engaged and well supported
- Research and innovation and digital advances inform service delivery

To achieve these outcomes, NSW Health has set a series of ambitious targets and has a comprehensive program of change initiatives in place. These targets have been built into key performance indicators in the Service Agreement, the NSW Health Performance Framework, the NSW Health Purchasing Framework and the funding model.

3. NSW Health services and networks

Each NSW Health service is a part of integrated networks of clinical services that aim to ensure timely access to appropriate care for all eligible patients. The Organisation must ensure effective contribution, where applicable, to the operation of statewide and local networks of retrieval, specialty service transfer and inter-district networked specialty clinical services.

3.1 Cross district referral networks

Districts and Networks are part of a referral network with other relevant services, and must ensure the continued effective operation of these networks, especially the following:

- <u>Critical Care Tertiary Referral Networks and Transfer of Care (Adults)</u> (PD2018_011)
- Interfacility Transfer Process for Adult Patients Requiring Specialist Care (PD2011 031)
- NSW Paediatric Clinical Care and Inter-hospital Transfer Arrangements (PD2023_019)
- <u>Tiered Networking Arrangements for Perinatal Care in NSW</u> (PD2020_014)
- Accessing inpatient mental health care for children and adolescents (IB2023_001)
- <u>Adult Mental Health Intensive Care Networks</u> (PD2019_024)
- <u>State-wide Intellectual Disability Mental Health Hubs</u> (Services provided as per March 2019 Service Level Agreements with Sydney Children's Hospitals Network and Sydney Local Health District).

3.2 Supra LHD services

Under the <u>New Health Technologies and Specialised Services</u> policy (GL2022_012), Supra LHD services are provided across District and Network boundaries to provide equitable access for everyone in NSW.

The following information is included in all Service Agreements to provide an overview of recognised Supra LHD services and Nationally Funded Centres in NSW.
