	DEMO1	Dem9	Finch, Sandra Dem8223400	FIBSOL			No
	DEMO1	Dem10	Scott, Ian Dem45678	VEG			No

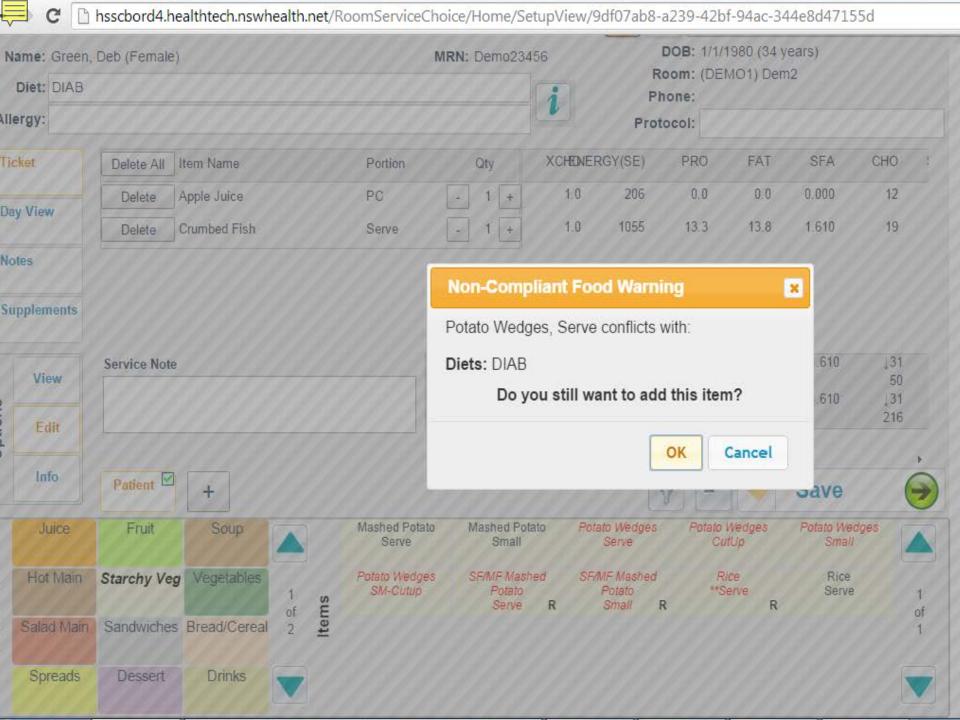

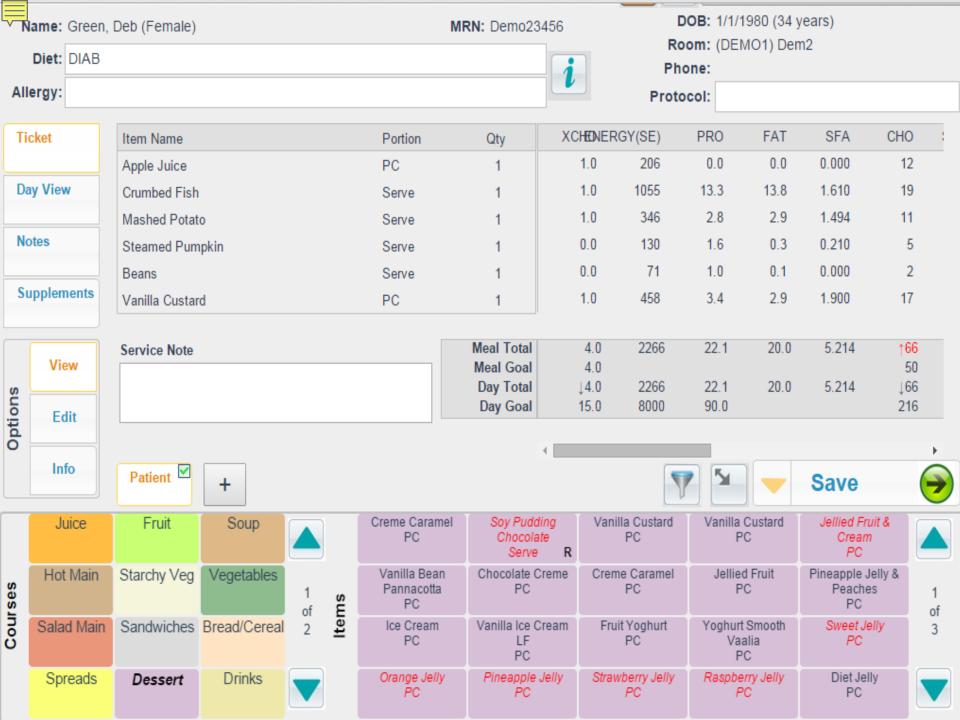

This technology means

- Reduced food wastage
- Better communication regarding patient changes as our staff will be on the wards more
- Many more options for changing our food service delivery model.
- Ability to track actual patient food consumption
 - → real information on what patients are eating
 - → adjust products and menus accordingly
- Future possibilities include linking with patient entertainment devices
