

INDEPENDENT AUDITOR'S REPORT

Albury Base Hospital

To Members of the New South Wales Parliament

I have audited the accompanying financial statements of Albury Base Hospital (the Entity), which comprise the statement of financial position as at 30 June 2013, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information.

Opinion

In my opinion, the financial statements:

- give a true and fair view of the financial position of the Entity as at 30 June 2013, and of the financial performance and the cash flows for the year then ended in accordance with Australian Accounting Standards
- are in accordance with section 45E of the *Public Finance and Audit Act 1983* (the PF&A Act) and the Public Finance and Audit Regulation 2010

My opinion should be read in conjunction with the rest of this report.

The Director-General's Responsibility for the Financial Statements

The Director-General of the NSW Ministry of Health is responsible for the preparation of the financial statements that give a true and fair view in accordance with Australian Accounting Standards and the PF&A Act, and for such internal control as the Director-General determines is necessary to enable the preparation of financial statements that give a true and fair view and that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on the financial statements based on my audit. I conducted my audit in accordance with Australian Auditing Standards. Those standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Director-General, as well as evaluating the overall presentation of the financial statements.

I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

My opinion does *not* provide assurance:

- about the future viability of the Entity
- that it has carried out its activities effectively, efficiently and economically
- about the effectiveness of its internal control
- about the security and controls over the electronic publication of the audited financial statements on any website where they may be presented
- about other information that may have been hyperlinked to/from the financial statements.

Independence

In conducting my audit, I have complied with the independence requirements of the Australian Auditing Standards and relevant ethical pronouncements. The PF&A Act further promotes independence by:

- providing that only Parliament, and not the executive government, can remove an Auditor-General
- mandating the Auditor-General as auditor of public sector agencies, but precluding the provision of non-audit services, thus ensuring the Auditor-General and the Audit Office of New South Wales are not compromised in their roles by the possibility of losing clients or income.

S Bond

Sally Bond
Director, Financial Audit Services

11 October 2013
SYDNEY

Albury Base Hospital
Certification of Financial Statements for the year ended 30 June 2013

Pursuant to section 45F of the *Public Finance and Audit Act 1983*, I state that in my opinion:

- 1) The financial statements of the Albury Base Hospital for the year ended 30 June 2013 have been prepared in accordance with:
 - i) Australian Accounting Standards (which include Australian Accounting Interpretations);
 - ii) the requirements of the *Public Finance and Audit Act 1983*, the *Public Finance and Audit Regulations 2010* and the Treasurer's Directions;
- 2) The financial statements exhibit a true and fair view of the financial position and financial performance of the Albury Base Hospital; and
- 3) There are no circumstances which would render any particulars in the financial statements to be misleading or inaccurate.

John Roach
Chief Financial Officer

Dr. Mary Foley

Albury Base Hospital
Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

1. The Reporting Entity

The Albury Base Hospital

Albury Base Hospital encompasses the physical assets of Albury Base Hospital and related transactions. The reporting entity was created after the excision of Albury Base Hospital from the former GSAHS. The physical assets of ABH were transferred to a statutory corporation called 'Albury Base Hospital' on 30 June 2009. On 1 July 2009 the statutory corporation was abolished. Upon the statutory corporation being abolished, the Ministry of Health concluded the assets should be recognised by a special purpose service entity called Albury Base Hospital.

The Albury Base Hospital is a reporting entity that comprises the property, plant and equipment and related transactions of the facility. The provision of services at the hospital is covered by a contract arrangement with Albury Wodonga Health, a Victorian Government entity.

The creation of Albury Base Hospital (the entity) enabled the land, buildings, plant and equipment assets associated with the delivery of acute services in Albury to be transferred from the former Greater Southern Area Health Service (GSAHS) to the new entity.

The reporting entity is consolidated as part of the Ministry of Health and NSW Total State Sector Accounts.

The financial statements were authorised for issue by the Director General on 9 October 2013.

2. Summary of Significant Accounting Policies

General Purpose Financial Statements

Basis of Preparation

The Entity's financial statements are general purpose financial statements which have been prepared in accordance with the requirements of Australian Accounting Standards (which include Australian Accounting Interpretations), the requirements of the *Health Services Act 1997* and its regulations including observation of the Accounts and Audit Determination for Public Health Organisations.

Statement of Compliance

The entity's financial statements comply with Australian Accounting Standards which include

Apart from property, plant & equipment, the historical cost basis of accounting has been adopted and the financial statements do not take into account changing money values or current valuations. However, certain provisions are measured at fair value. See note (b), (d) and (f). The accrual basis of accounting has been adopted in the preparation of the financial statements, except for cash flow information.

Management's judgments, key assumptions and estimates are disclosed in the relevant notes to the financial statements.

Albury Base Hospital
Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

All amounts are rounded to the nearest one thousand dollars and are expressed in Australian currency.

Comparative Information

Comparative figures are, where appropriate, reclassified to give meaningful comparison with the current year.

New Australian Accounting Standards Issued But Not Effective

No new or revised accounting standards or interpretations are adopted earlier than their prescribed date of application. Set out below are changes to be effected, their date of application and the possible impact on the financial report of the Albury Base Hospital Special Purpose Entity.

AASB 9 and AASB 2010-7, Financial Instruments have mandatory application from 1 July 2015 and comprise changes to improve and simplify the approach for classification and measurement of financial assets. The change is not expected to materially impact the financial statements.

AASB 10, Consolidated Financial Statements has mandatory application from 1 July 2013 and provides replacement criteria for the assessment of control in lieu of the provisions of AASB 127. Changes to the reporting of consolidated entities is not expected as a result of this amendment.

AASB 11, Joint Arrangements has mandatory application from 1 July 2013 and defines joint control and the determination of joint control through an assessment of rights and obligations. The Standard is not expected to have any effect within the entity.

AASB 12, Disclosure of Interests in Other Entities, has mandatory application from 1 July 2013 and requires disclosure of significant judgements and assumptions made in determining the nature of its interests in another entity or arrangement. It is not expected that the changes will have a material impact.

AASB 13, AASB 2011-8 and AASB 2012-1, Fair Value Measurement have mandatory application from 1 July 2013 and address, inter alia, the assumptions that market participants would use when pricing the asset or liability. Future impact is assessed as minimal.

AASB 119, AASB 2011-10 and AASB 2011-11, regarding employee entitlements, have mandatory application from 1 July 2013 and cover the recognition and measurement of short term and long term employee benefits. Any changes to the 2013/14 financial statements will be dependent on the policy of NSW Treasury.

AASB 127, Separate Financial Statements, has mandatory application from 1 July 2013 and applies in accounting for interests in subsidiaries, joint ventures and associates. Based on current activities, it is assessed as having no future impact on the entity.

AASB 128, Investments in Associates and Joint Ventures, has mandatory application from 1 July 2013 and, based on current activities, is assessed as having no impact on the entity.

Albury Base Hospital

Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

AASB 1053 and AASB 2010-2, Application of Tiers of Australian Accounting Standards, have application from 1 July 2013 and may result in a lessening of reporting requirements, dependent on the policy of NSW Treasury.

AASB 1055, Budgetary Reporting, has application from 1 July 2014. Any changes in future disclosures will be determined by the policies adopted by NSW Treasury for whole of government reporting.

AASB 2010-10 regarding removal of fixed dates for first time adopters, has mandatory application from 1 July 2013 and, based on current activities, is assessed as having no impact on the entity.

AASB 2011-2, Trans-Tasman Convergence Project - Reduced Disclosure Requirements, has mandatory application from 1 July 2013 and may result in a lessening of reporting requirements, dependent on the policy of NSW Treasury.

AASB 2011-4, Amendments to Australian Accounting Standards To Remove Individual Key Management Personnel Disclosure Requirements, has application from 1 July 2013 and removes the requirement to individually report the remuneration of Key Management Personnel, recognising that this is more a governance issue.

AASB 2011-6, Amendments to Australian Accounting Standards - Extending Relief from Consolidation, the Equity Method and Proportionate Consolidation - Reduced Disclosure Requirements (AASB 127, AASB 128 and AASB 131), applies from 1 July 2013. The exemption is not expected to have a material impact.

AASB 2011-7, Amendments to Australian Accounting Standards for the consolidation and joint arrangement standards, arise from the issuance of AASB 10, AASB 11, AASB 12, AASB 127, and AASB 128. The changes have application from 1 July 2013 but are assessed as having no material effect.

AASB 2011-10, Amendments to Australian Accounting Standards arising from AASB 119, applicable from 1 July 2013 assessed as having no material impact.

AASB 2011-11, Amendments to AASB 119 (September 2011) arising from Reduced Disclosure Requirements, applicable from 1 July 2013 assessed as having no material impact.

The following changes will depend on the policies determined by NSW Treasury.

AASB 2012-1, Amendments to Australian Accounting Standards – Fair Value Measurement – Reduced Disclosure Requirements. Sets out reduced disclosure requirements as a consequence of the issuance of AASB 13, having application from 1 July 2013.

AASB 2012-2, Amendments to Australian Accounting Standard - Offsetting Financial Assets and Financial Liabilities, has application for reporting periods starting on or after 1 January 2013 and seeks to address some of the offsetting criteria of AASB 7.

AASB 2012-3, Amendments to Australian Accounting Standard - Offsetting Financial Assets and Financial Liabilities, has application from 1 January 2014 and seeks to address inconsistencies identified in applying some of the offsetting criteria of AASB 132.

Albury Base Hospital

Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

AASB 2012-4, Amendments to Australian Accounting Standards – Government Loans (Amendments to AASB 1 'First-time Adoption of International Financial Reporting Standards'). Applicable to reporting periods on or after 1 January 2013.

AASB 2012-5 regarding annual improvements 2009 to 2011 cycle. Applicable to reporting periods on or after 1 January 2013.

AASB 2012-7, Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements. Applicable to reporting periods on or after 1 January 2013.

AASB 2012-9, Amendment to AASB 1048 arising from the Withdrawal of Australian Interpretation 1039. Applicable to reporting periods on or after 1 January 2013.

AASB 2012-10, Amendments to Australian Accounting Standards – Transition Guidance and Other Amendments. Applicable to reporting periods on or after 1 January 2013.

AASB 2012-11, Amendments to Australian Accounting Standards – Reduced Disclosure Requirements and Other Amendments, having application from 1 July 2013.

AASB 2013-1, Amendments to AASB 1049 – Relocation of Budgetary Reporting Requirements, having application from 1 July 2014.

Other significant accounting policies used in the preparation of these financial statements are as follows:

a) Income

Income is measured at the fair value of the consideration received or receivable.

b) Payables

A payable is recognised when a present obligation arises under a contract or otherwise. It is derecognised when the obligation expires or is discharged, cancelled or substituted.

Payables are recognised initially at fair value, usually based on the transaction cost or face. Subsequent measurement is at amortised cost using the effective interest method. Short-term with no stated interest rate are measured at the original invoice amount where the effect of is immaterial. Payables are recognised for amounts to be paid in the future for goods and received, whether or not billed to the Entity.

c) De-recognition of Financial Assets and Financial Liabilities

A financial asset is derecognised when the contractual rights to the cash flows from the financial expire; or if the agency transfers the financial asset:

- * where substantially all the risks and rewards have been transferred; or
- * where the Entity has not transferred substantially all the risks and rewards, if the Entity has not retained control.

Where the Entity has neither transferred nor retained substantially all the risks and rewards or transferred control, the asset is recognised to the extent of the Entity's continuing involvement in the asset.

A financial liability is derecognised when the obligation specified in the contract is discharged or expires.

Albury Base Hospital

Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

d) Acquisition of Assets

The cost method of accounting is used for the initial recording of all acquisitions of assets controlled by the entity. Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire the asset at the time of its acquisition or construction or, where applicable, the amount attributed to that asset when initially recognised in accordance with the specific requirements of other Australian Standards. Assets acquired at no cost, or for nominal consideration, are initially recognised as assets and revenues at their fair value at the date of acquisition.

e) Depreciation of Property, Plant and Equipment

Depreciation is provided for on a straight-line basis for all depreciable assets so as to write off the depreciable amount of each asset as it is consumed over its useful life to the Entity. Land is not a depreciable asset. All material separately identifiable components of assets are depreciated over their shorter useful lives.

Details of depreciation rates initially applied for major asset categories are as follows:

Buildings	2.5%
Electro Medical Equipment	
- Costing less than \$200,000	10.0%
- Costing more than or equal to \$200,000	12.0%
Infrastructure Systems	2.5%
Motor Vehicle Sedans	12.5%
Motor Vehicles, Trucks & Vans	20.0%
Office Equipment	10.0%
Plant and Machinery and Office Equipment	10.0%

Depreciation rates are subsequently varied where changes occur in the assessment of the remaining useful life of the assets reported.

f) Revaluation of Non-Current Assets

Physical non-current assets are valued in accordance with the Ministry of Health's "Valuation of Physical Non-Current Assets at Fair Value" policy. This policy adopts fair value in accordance with AASB116, *Property, Plant and Equipment*. Property, plant and equipment is measured on an existing use basis, where there are no feasible alternative uses in the existing natural, legal, financial and socio-political environment. However, in the limited circumstances where there are feasible alternative uses, assets are valued at their highest and best use.

The Entity revalues its Land and Buildings and Infrastructure at minimum every three years by independent valuation. The last revaluation for assets assumed by the Entity as at 30 June 2013 was completed on 4 April 2013 and was based on an independent assessment.

Non-specialised assets with short useful lives are measured at depreciated historical cost, as a surrogate for fair value.

When revaluing non-current assets by reference to current prices for assets newer than those being revalued (adjusted to reflect the present condition of the assets), the gross amount and the related accumulated depreciation are separately restated.

Albury Base Hospital

Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

For other assets, any balances of accumulated depreciation existing at the revaluation date in respect of those assets are credited to the asset accounts to which they relate. The net asset accounts are then increased or decreased by the revaluation increments or decrements.

Revaluation increments are credited directly to the asset revaluation reserve, except that, to the extent that an increment reverses a revaluation decrement in respect of that class of asset previously recognised as an expense in the Net Result for the Year, the increment is recognised immediately as revenue in the Result for the Year.

Revaluation decrements are recognised immediately as expenses in the Net Result for the Year, except that, to the extent that a credit balance exists in the asset revaluation reserve in respect of the same class of assets, they are debited directly to the asset revaluation reserve.

As a not-for-profit entity, revaluation increments and decrements are offset against one another within a class of non-current assets, but not otherwise.

Where an asset that has previously been revalued is disposed of, any balance remaining in the asset revaluation reserve in respect of that asset is transferred to accumulated funds.

g) Impairment of Property, Plant and Equipment

As a not-for-profit entity with no cash generating units, the Entity is effectively exempt from AASB 136 *Impairment of Assets* and impairment testing. This is because AASB136 modifies the recoverable amount test to the higher of fair value less costs to sell and depreciated replacement cost. This means that, for an asset already measured at fair value, impairment can only arise if selling costs are regarded as material. Selling costs are regarded as immaterial.

h) Equity and Reserves

Asset Revaluation Reserve

The asset revaluation reserve is used to record increments and decrements on the revaluation of non-current assets. This accords with the entity's policy on the revaluation of property, plant and equipment as discussed in Note 1(f).

i) Equity Transfers

The transfer of net assets between agencies as a result of an administrative restructure, transfers of programs/functions and parts thereof between NSW public sector agencies is designated or required by Accounting Standards to be treated as contributions by owners and is recognised as an adjustment to "Accumulated Funds". This treatment is consistent with AASB1004, *Contributions* and Australian Interpretation 1038 *Contributions by Owners Made to Wholly-Owned Public Sector Entities*.

Transfers arising from an administrative restructure involving not-for-profit entities and for-profit government departments are recognised at the amount at which the asset was recognised by the transferor immediately prior to the restructure. Subject to below, in most instances this will approximate fair value.

All other equity transfers are recognised at fair value, except for intangibles. Where an intangible has been recognised at (amortised) cost by the transferor because there is no active market, the Entity recognises the asset at the transferor's carrying amount. Where the transferor is prohibited from recognising internally generated intangibles, the Entity does not recognise that asset.

Albury Base Hospital

Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

8. FINANCIAL INSTRUMENTS

Financial Instruments arise directly from the Entity's operations or are required to finance its operations. The Entity does not enter into or trade financial instruments, including derivative financial instruments for speculative purposes.

The Director General has overall responsibility for the establishment and oversight of risk management and reviews and agrees policies for managing each of these risks. The Entity carries minimal risks within its operation as it carries no payable or receivable balances.

Risk management policies are established by the Ministry of Health to identify and analyse the risk faced by the Entity, to set risk limits and controls and monitor risks. Compliance with policies is reviewed by the Audit Committee/Internal auditors of the Ministry of Health on a continuous basis.

a) Financial Instruments Categories

		Total carrying amounts as per the Statement of Financial Position	
		2013 \$000	2012 \$000
Financial Assets			
Class:	Category		
Other Financial Assets	Measured at at amortised cost	-	-
Total Financial Assets		<u>-</u>	<u>-</u>
Financial Liabilities			
Class:	Category		
Payables	Financial liabilities Measured at at amortised cost	-	-
Total Financial Liabilities		<u>-</u>	<u>-</u>

¹Excludes statutory receivables and prepayments, i.e. not within the scope of AASB 7.

b) Credit Risk

Credit risk arises when there is the possibility of the Entity's debtors defaulting on their contractual obligations, resulting in a financial loss to the Entity. The maximum exposure to credit risk is generally represented by the carrying amount of the financial assets (net of any allowance for impairment).

Credit risk arises from financial assets of the Entity i.e. receivables. The Entity does not hold any financial assets and as a result has no exposure to credit risk. No collateral is held by the entity nor has it granted any financial guarantees.

c) Liquidity Risk

Liquidity risk is the risk that the Entity will be unable to meet its payment obligations when they fall due. No such risk exists with the Entity not having any cash flows.

Albury Base Hospital

Notes to and forming part of the Financial Statements for the Year Ended 30 June 2013

d) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Entity's exposures to market risk are considered to be minimal and the Entity has no exposure to foreign currency risk and does not enter into commodity contracts.

Interest rate risk

Exposure to interest rate risk arises primarily through interest bearing liabilities.

However the Entity has no such liabilities and the interest rate is assessed as Nil. Similarly it is considered that the Entity is not exposed to other price risks.

e) Fair Value

Financial instruments are generally recognised at cost.

The amortised cost of financial instruments recognised in the statement of financial position approximates fair value because of the short term nature of the financial instrument.

9 RELATED PARTIES

The Ministry of Health is deemed to control the Albury Base Hospital in accordance with Australian Accounting Standards. The controlling entity is established under the Public Sector Employment and Management Act 2002. Transactions and balances in these financial statements relate only to the entity's function as holder of the land, buildings, plant and equipment assets associated with the delivery of acute services at the Albury Base Hospital.

The entity's cash receipts and payments are effected by the Ministry of Health on the entity's behalf.

10 POST BALANCE DATE EVENTS

No post balance date events have occurred which warrant inclusion in this report.

END OF AUDITED FINANCIAL STATEMENTS
