

2013 YourSay Workplace Survey

LHD Report

Ministry of Health

This Report

This report provides Ministry of Health with data from the 2013 YourSay Workplace Survey. It summarises staff views and presents comparative data to help put the results into perspective.

Response Rates

The Actual Responses gives the total number of valid surveys that were returned for this facility.

The Estimated Response Rate quoted in this report is an estimate only, based on Full Time Equivalent (FTE) staff as at 2 April 2013. This figure does not include contractors, agency staff and volunteers, nor does it account for staff on secondment or extended leave, hence the estimated response rate is not accurate.

The final estimated response rates have been weighted to account for our part-time and temporary staff.

The estimated response rates for individual facilities cannot be provided where the actual number of surveys received exceeded the nominated FTE for that facility. This error could be from an incorrect FTE value being used and/or errors in self selection when completing the survey.

Confidence Intervals

Confidence intervals have been calculated on the total facility responses (within a 5% error rating). If the CI is less than 5% these responses are a representative sample of this facility population.

If the CI is greater than 5% these responses are a snapshot of the views of staff at this facility, as opposed to being a representative sample.

Results

Where results are shown as positive percentages (% Positive), these are calculated by adding together positive responses ("Strongly Agree" + "Agree") and dividing by the number of respondents which answered the question.

Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of calculation for maximum accuracy. Therefore in some instances, results may not total 100%.

Comparative data

Comparative data is the average % positive score achieved from all NSW Health organisations that participated in the 2013 Workplace Survey.

Anonymity

It is ORC International's practice not to allow the breakdown of groups to the extent where the anonymity of individuals may be compromised. Results for teams with less than ten will not receive an individual report. However, their data will still contribute to the scores for their group and the organisation overall.

Summary responses for each question by demographic data is not provided where there are less than ten respondents from each demographic.

WORKPLACE CULTURE INDEX

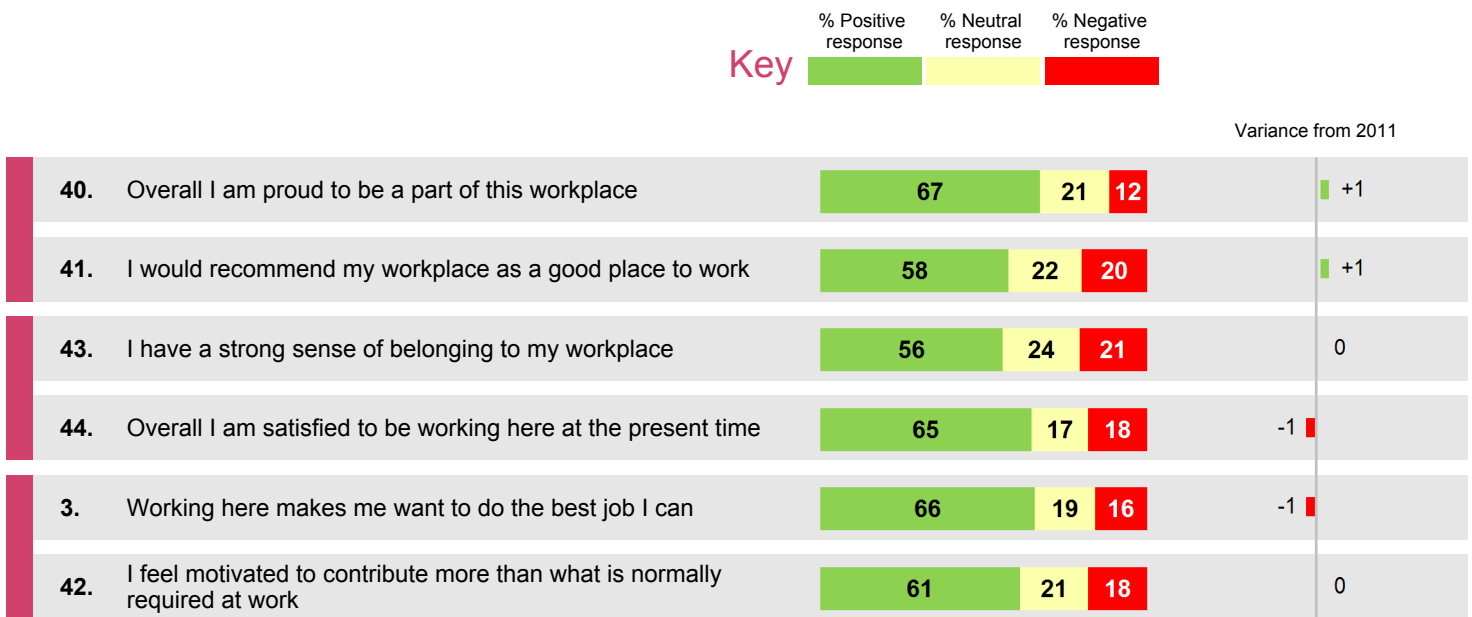

Employee Engagement Index

The Engagement Index is a measure of respondents commitment to the organisation they work for. Engagement goes beyond satisfaction and can be defined as employees' willingness to invest their personal effort in the success of the organisation.

The three elements of Employee Engagement

- Say** Strongly advocating the organisation
- Stay** An emotional commitment to the organisation and a desire to stay
- Strive** Providing sustained additional effort in line with organisational goals

The following six questions have been identified as being most aligned to Employee Engagement. The Engagement Index is an average of the following scores:

Employee Workplace Culture Index

The Workplace Culture Index is a measure statistically constructed based on the NSW Health Workplace Culture Framework.

The following fifteen questions have been identified as being most aligned to Workplace Culture. The Workplace Culture Index is an average of the following scores:

	Key			Variance from 2011
	% Positive response	% Neutral response	% Negative response	
11. Morale is good in my team	56	16	28	+2
12. I believe I am valued for what I can offer at my workplace	62	16	22	0
13. In my workplace, we recognise our successes and innovations	55	22	22	-1
14. Staff are treated respectfully regardless of their job	66	13	21	+2
17. Overall, I have confidence in the decisions made by my line manager	69	16	15	+3
18b. The senior managers at my workplace ... have a clear direction for the future	50	24	26	+6
18c. The senior managers at my workplace ... lead by example in creating a positive workplace	49	24	27	0
20. Overall, I have confidence in the decisions made by my senior managers	55	24	21	+2
22. I have a say in decisions which affect my work	44	24	32	0
23. I think it is safe to speak up and challenge the way things are done	52	20	29	+3
24a. Where I work, we share the lessons learnt when mistakes are made	47	28	25	-2
28. I have confidence in the processes that my workplace uses to resolve staff conflict	37	35	28	+2
37. My team's objectives/work plans are clearly outlined	58	21	21	-1
38. Our objectives/work plans help us to deliver a quality service	57	26	17	+1
46. Overall, I believe the culture at my workplace has improved in the last 12 months	28	41	31	+7

Drivers of Engagement

The impact analysis below identifies the areas that have the potential to improve and maintain the engagement of your employees. The dashboard below shows the questions with the greatest impact on Employee Engagement for Ministry of Health. These questions are not necessarily the lowest performers, rather the questions having the greatest impact on engagement for Ministry of Health as a whole.

The questions derived from the impact analysis should be used to guide the action planning process following the survey, as taking effective action in these areas should have a positive impact on Employee Engagement. This information should also be used in conjunction with the rest of the questions included in the survey.

The questions are listed below in descending order of greatest impact on engagement.

Drivers of Employee Engagement

	Impact (on Employee Engagement)	% Positive	NSW Health Overall % positive score	Department of Health 2011 % positive score
	<i>Greatest</i>			
46. Overall, I believe the culture at my workplace has improved in the last 12 months		28	36	21
35. My work environment allows me to deliver the best possible services (patient care or support services)		47	59	52
13. In my workplace, we recognise our successes and innovations		55	55	56
28. I have confidence in the processes that my workplace uses to resolve staff conflict		37	42	35
39. At my workplace there is a good balance between delivering services and monitoring service delivery		45	52	
11. Morale is good in my team		56	51	54

Highlights and lowlights

This section shows the three highest scoring sections and five highest scoring questions (Highlights). It also shows the three lowest scoring sections and the five lowest scoring questions (Lowlights).

Guide to using this report

Methodology

The YourSay survey was delivered as an online and paper based survey to meet the operational needs of a workforce that operates 24 hours a day, 7 days a week.

Questionnaire design

The questionnaire was designed by ORC International in conjunction with the NSW Health workplace culture project team, the Department of Health Workplace Culture Survey Reference Group and Chief Executives of all NSW Health organisations. The questionnaire was designed to be succinct and provide actionable results to help inform the organisation and highlight areas for improvement.

Data collection

The survey used an online methodology with all staff invited to participate however, paper copies of the survey were also made available.

All staff were given the opportunity to complete the survey between 25th March to the 29th April, 2013. Paper surveys were accepted until the 3rd of May, 2013.

ORC International set up and hosted the online survey. Respondents were asked to put in a user name and password unique to them in order to enable the respondent to leave and return the survey.

Estimated Response Rate Calculation

The Estimated Response Rate quoted in this report is an estimate only, based on Full Time Equivalent (FTE) staff as at 2nd April 2013. This figure does not include contractors, agency staff and volunteers, nor does it account for staff on secondment or extended leave, hence the estimated response rate is not accurate.

The final estimated response rates have been weighted to account for our part-time and temporary staff. The proportion of Full time and Part time staff have been taken from those who responded to "Q5. Which of the following best describes your current employment status?" A Part-time respondent has been weighted by 0.33 (i.e. they are assumed to work one in three days).

Example calculation for NSW Health Overall:

Q5. Which of the following best describes your current employment status?

	Responses	<i>Fixed term or temporary contract (3) proportioned into Full and Part time based on responses to (1) and (2).</i>	
Permanent Full time (1)	18750	$\frac{18750}{18750 + 7753}$	$\times 1661 = 1175$ Full time
Permanent Part time (2)	7753		
Fixed term or temporary contract (3)	1661		
Agency (4)	132	$\frac{7753}{18750 + 7753}$	$\times 1661 = 486$ Part time
Casual (5)	975		
Contractor (6)	203		
TOTAL answering Q51	29474		
TOTAL number of respondents to the survey	31493		

Total estimated Full time responses as a proportion of all respondents to the survey:

$$\frac{1850 + 1175}{29474} \times 31493 = 21290 \text{ Estimated Full Time responses}$$

Total estimated Part time responses as a proportion of all respondents to the survey:

$$\frac{7753 + 486}{29474} \times 31493 = 8803 \text{ Estimated Part Time responses}$$

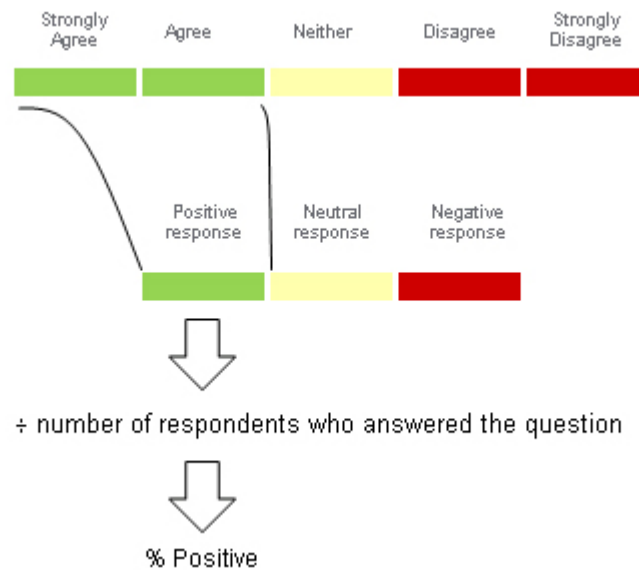

Estimated response rate based on an FTE value of 94882.6 and weighting estimated number of Part time responses by 0.33.

$$\frac{21289 + (8803 \times 0.33)}{94882.6} = 25\% \text{ Estimated Response Rate}$$

Guide to using this report

% Positive

Where results are shown as positive percentages (% Positive), these are calculated by adding together positive responses ("Strongly Agree" + "Agree") and dividing by the number of respondents which answered the question.

Index and Section Scores

Index and Section scores are calculated as the sum of positive responses given to all questions in that Index or Section divided by the number of answers to all questions in the group.

Rounding

Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of calculation for maximum accuracy. Values from x.00 to x.49 are rounded down and values from x.50 to x.99 are rounded up. Therefore in some instances, results may not total 100%.

	Strongly Agree	Agree	Neither	Disagree	Strongly Disagree	Total
Number of Responses	151	166	176	96	24	613
Percentage	24.63%	27.08%	28.71%	15.66%	3.92%	100.00%
Rounded Percentage	25%	27%	29%	16%	4%	101%
Number of positive responses	(151	+ 166)	=		317	
% Positive	317	÷ 613	=		52%	

Trend data

Comparisons to the previous survey relate to the results from the 2011 YourSay Workplace Survey. Questions 4 and 39 were negatively worded in 2011 and so are not directly comparable to 2013 results. Questions 33a and 33b specifically excluded patients and visitors from the inappropriate behaviour and are not directly comparable to 2013 results. Questions 24b, 24c and 33c were introduced to the survey in 2013 and therefore do not have trend data.

Benchmark data

ORC International facilitates a benchmarking programme which allows organisations to benchmark their results against the results of other organisations in their sector. In this report, the external benchmark data is the average % positive score achieved from a recent surveys of a random sample of 1,081 Australian health care employees outside of NSW who work in either the public health sector only or the public and private health sector.
