Guide to this Report

Methodology

The YourSay survey was delivered as an online and paper based survey to meet the operational needs of a workforce that operates 24 hours a day, 7 days a week.

Questionnaire design

The questionnaire was designed by ORC International in conjunction with the NSW Health workplace culture project team, the Department of Health Workplace Culture Survey Reference Group and Chief Executives of all NSW Health organisations. The questionnaire was designed to be succinct and provide actionable results to help inform the organisation and highlight areas for improvement.

Data Collection

The survey used an online methodology with all staff invited to participate however, paper copies of the survey were also made available. All staff were given the opportunity to complete the survey between 30th March to 24th April 2015. Paper surveys were accepted until the 1st of May 2015. ORC International set up and hosted the online survey. Respondents were asked to put in a user name and password unique to them in order to enable the respondent to leave and return the survey.

Comparative data

Comparative data is the average % positive score achieved from all NSW Health organisations that participated in the 2013 Workplace Survey.

Results

Where results are shown as positive percentages (% Positive), these are calculated by adding together positive responses ("Strongly Agree" + "Agree") and dividing by the number of respondents which answered the question. Results are presented as whole numbers for ease of reading, with rounding performed at the last stage of calculation for maximum accuracy. Therefore in some instances, results may not total 100%.

Anonymity

It is ORC International's practice not to allow the breakdown of groups to the extent where the anonymity of individuals may be compromised. Results for teams with less than ten will not receive an individual report. However, their data will still contribute to the scores for their group and the organisation overall. Summary responses for each question by demographic data is not provided where there are less than fifty respondents from each demographic.

Confidence Intervals

Confidence intervals have been calculated on the total facility responses (within a 5% error rating). If the CI is less than 5% these responses are a representative sample of this facility population. If the CI is greater than 5% these responses are a snapshot of the views of staff at this facility, as opposed to being a representative sample.

Rounding

The Estimated Response Rate quoted in this report is an estimate only, based on Full Time Equivalent (FTE) staff as at April 2015. This figure does not include contractors, agency staff and volunteers, nor does it account for staff on secondment or extended leave, hence the estimated response rate is not accurate. The final estimated response rates have been weighted to account for our part-time and temporary staff. The proportion of Full time and Part time staff have been taken from those who responded to "Q5. Which of the following best describes your current employment status?" A Part-time respondent has been weighted by 0.33 (i.e. they are assumed to work one in three days).

Q5. Which of the following best describes your current employment status?

Responses	Fixed term or temporary contract (3) proportioned into Full and Part time based on responses to (1) and (2).
Permanent Full time (1)	18750
Permanent Part time (2)	7753
Fixed term or temporary contract (3)	1661
Agency (4)	132
Casual (5)	975
Contractor (6)	203
TOTAL answering Q51	29474
TOTAL number of respondents to the survey	31493

Calculations:
Full time: $\frac{18750}{18750 + 7753} \times 1661 = 1175$ Full time
Part time: $\frac{7753}{18750 + 7753} \times 1661 = 486$ Part time

Total estimated Full time responses as a proportion of all respondents to the survey:

$$\frac{1850 + 1175}{29474} \times 31493 = 21290 \text{ Estimated Full Time responses}$$

Total estimated Part time responses as a proportion of all respondents to the survey:

$$\frac{7753 + 486}{29474} \times 31493 = 8803 \text{ Estimated Part Time responses}$$

Estimated response rate based on an FTE value of 94882.6 and weighting estimated number of Part time responses by 0.33.

$$\frac{21289 + (8803 \times 0.33)}{94882.6} = 25\% \text{ Estimated Response Rate}$$

Action Planning

Asking our employees for their feedback is the first step towards improving the employee experience. The next step is to implement changes. Please use the information in this report to help decide what you and your team need to change.

This simple form is one way you can record the actions and changes you plan to make within your team.
